 HENRY SCHEIN®
ASH ARCONA

**ADVANCING DENTISTRY
THROUGH TECHNOLOGY**

**HENRY SCHEIN ASH ARCONA presents
DR. LAVINE at the 2005 WINTER CLINIC**

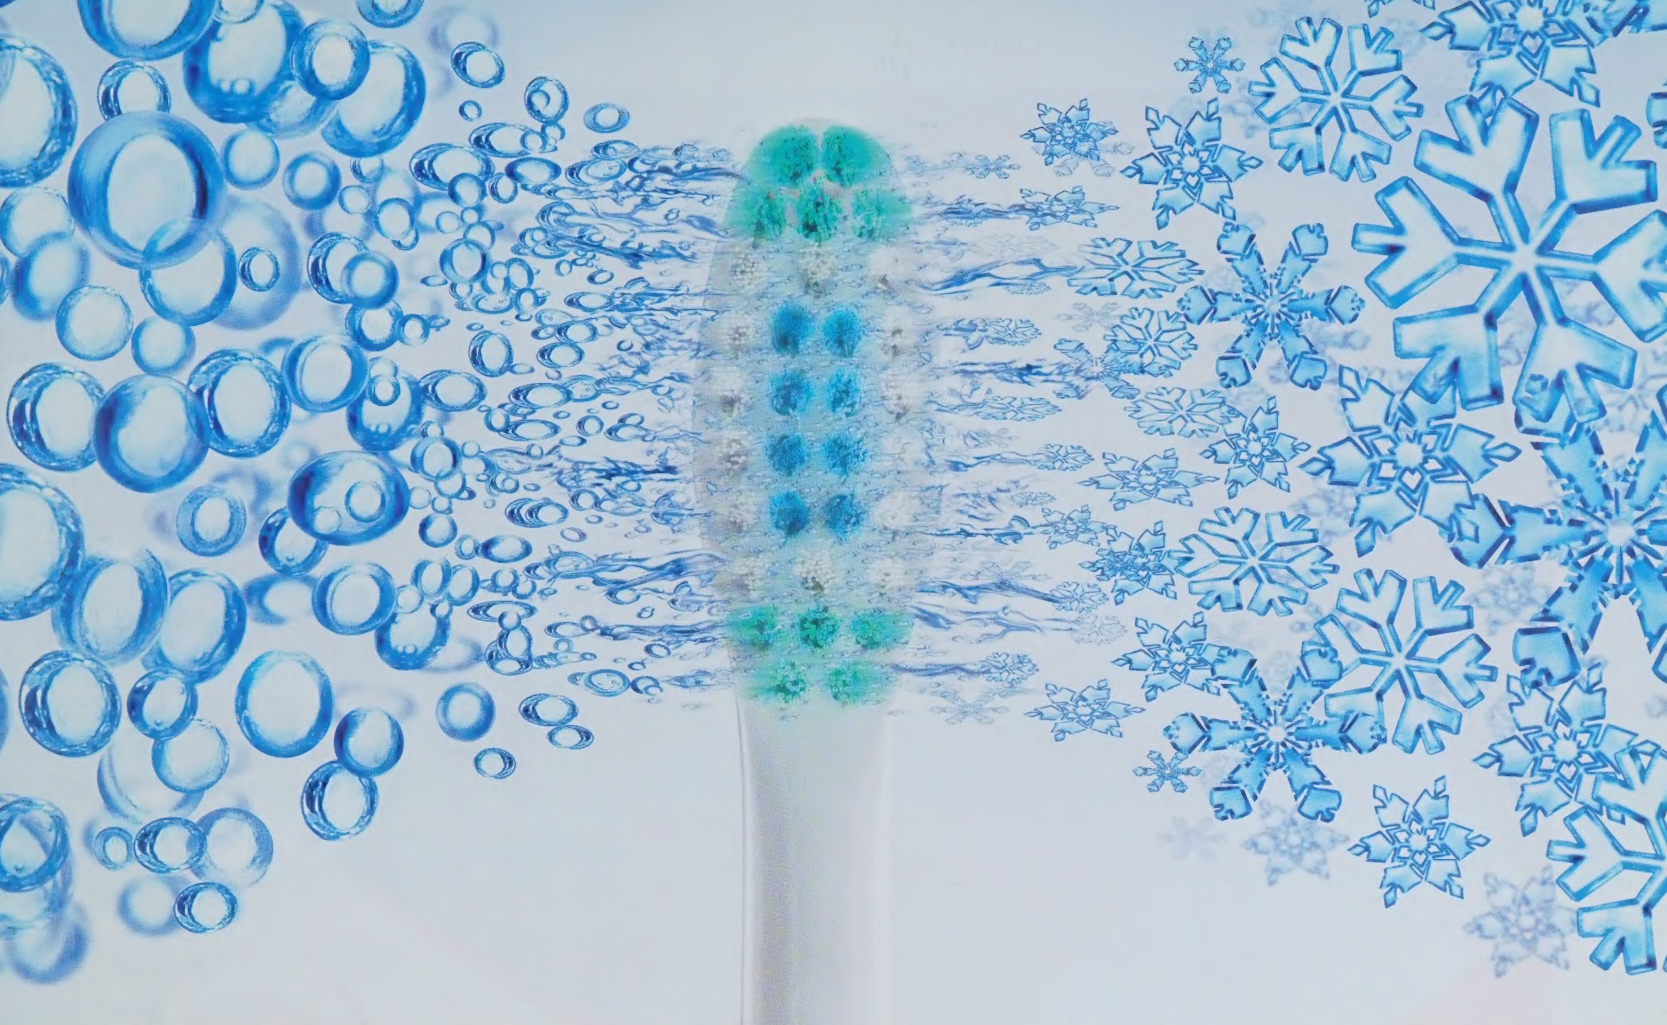

Dr. Lavine is a leading expert who has spent over 20 years in the dental and dental technology fields. His goals are to provide solutions to the problems faced by dentists in adding new technologies to their practices.

For more information about Dr. Lavine, please visit www.thedigitaldentist.com

1.800.668.5558

www.hsa.ca

The Clinical Facts.

Our patented Sonicare technology creates unique dynamic fluid cleaning action, making it exceptionally effective and gentle:

- Removes 3 times more plaque biofilm beyond the bristles than the leading rechargeable oscillating toothbrush¹
- Is clinically proven to reduce gingivitis and help shrink periodontal pockets²
- Is up to 4 times gentler on dentin than the Oral-B 3D Excel product line³

The Invigorating Feel.

Only Sonicare makes your mouth tingle with a stimulating clean—for a brushing experience professionals and patients actually enjoy:

- That's why 98% of dental professionals who used Sonicare Elite® for 90 days would recommend it to their patients⁴

Sonicare—patented technology specifically designed to deliver credible results so incredibly well.

Stop Brushing ● Start Sonicare

PHILIPS

www.sonicare.com

1. Hope CK, Wilson M. University College London, Eastman Dental Institute. Am J Dent 2002;15(Special Issue):7B-11B. (in vitro study versus the other leading power toothbrush)

2. Donly K. University of Texas. Data on file. (in vivo study)

3. Sorenson JA, Nguyen H. Oregon Health and Science University. Am J Dent 2002;15 (Special Issue):26B-32B. (in vitro study versus the other leading power toothbrush)

4. Based on a 90-day practice-based brand-identified monadic evaluation of Sonicare Elite with Registered Dental Hygienists.

NobelGuide™

perfect planning for perfect teeth

Plan it. Predict it. Prepare prosthetics in advance. Then execute it all perfectly – with the revolutionary NobelGuide™. The concept transforms extraoral planning into clinical reality. Easily, accurately and fast.

A custom-designed surgical template is created, based on your exact planning. You know the final position of the implants before you start. This allows the laboratory to make the prosthetic solution beforehand, so it can be delivered to the patient during the actual surgery.

The multi-faceted NobelGuide™ concept adapts to any level of practice. You can still work with conventional model-based planning. Or you can plan digitally, using the NobelGuide™ software powered by Procera®, which gives a perfect view of the patient's anatomy.

For you, the revolutionary NobelGuide™ means unrivalled predictability. For the patient, it truly means Beautiful Teeth Now™.

For more information, contact
your Nobel Biocare office or visit www.nobelbiocare.com

WINTER CLINIC IMPORTANT INFORMATION

North Building, Metro Toronto Convention Centre

Pre-Registration & On-Site

Registration:

Fees for all categories are payable to the Toronto Academy of Dentistry.

Please use one form per office, registering attendees under applicable category. (Only if necessary, please photocopy to add additional registrants per office).

The registration fee includes admission to the Clinics, Exhibits, Fashion Show, the Academy Theatre, Lunch and automatic entry for a chance to win 2 Roundtrip Business Class Tickets to Italy courtesy of Alitalia, followed by a Cocktail Reception, sponsored by RBC.

Alitalia

All registration fees include GST. (#123000879). The office will accept NO REGISTRATIONS after Friday, October 28, 2005. The office will be closed on Thursday, November 3, 2005 (the day before Winter Clinic) and Friday, November 4, 2005.

Association Membership:

ODA Dentist Members, regardless of their membership status, must have their full ODA dues paid prior to pre-registering or registering on-site. If current membership dues are not showing paid, non-member fees will apply.

ODHA, ODAA and RDT Membership fees must be paid to their associations prior to pre-registering. Please make sure the name (maiden or married surname) that appears on the registration form is the same that is listed with your association.

Payment of Fees:

Make cheques payable to the Toronto Academy of Dentistry and mail to:

Ste. 902 – 170 Bloor St. West
Toronto, Ontario M5S 1T9

Or fax registration forms along with credit card number to (416) 967-5081

Registration forms faxed indicating payment by cheque will not be accepted and must be mailed along with the cheque

Limited Attendance:

• **"Invisalign Certification", presented by Drs. Louis Shuman and Douglas Brandt**, is a limited attendance, 1 ½ day presentation for Dentists (Friday & Saturday) and up to Four Staff Members (Friday) only. You must complete the course registration form. The Registration fee of \$1,745 CAD includes one dentist and 4 auxiliary staff, all course materials, lunch, as well as full participation in all other Winter Clinic activities. The registering dentist must be a resident of Canada or the United States of America.

AGD Lunch & Learn Program

Dr. Antonio Mancuso's program, entitled "The HIGH-TECH, HIGH-TOUCH Dental Office", is a limited attendance presentation for 4th Year Dental Students and 2004, 2005 Dental Grads. Indicate your attendance on the registration form.

Cancellation and Refunds:

You will be issued a full refund, less a \$25.00 administration fee until October 21, 2005. Between October 22 and October 28, 2005, a 50% refund. There will be no refunds after October 28, 2005.

Badge Pick-up:

Badges will be mailed to attendees who register on or before October 7, 2005. If you do not pre-register, you may pick up your badge on the day of Winter Clinic. Your badge must be worn at all times. If lost or you do not have it on the day of Winter Clinic, a replacement badge will be issued on-site ONLY, with valid photo I.D. for a fee of \$50.00. There will be no exceptions.

Exhibit Hours, Clinics and Lunch:

Exhibits are open from 10:00 am – 6:00pm. All exhibits are located in Halls A & B on the exhibit floor of the NORTH Building of the Convention Centre.
SUPPORT YOUR EXHIBITORS!!

Be sure to attend one of over 25 comprehensive lectures of interest to every member of the dental team!

"Power Hour" sessions are informative and engaging one-hour sessions covering several aspects of dentistry. Power hours allow you to get the most out of your day by enabling you to attend both the clinical programs and the exhibit floor.

Lunch - 12:00-2:00 pm
in Exhibit Halls A & B

Attendance Verification for RCDSO Continuing Education Credit:

Dentists will receive 6 RCDSO credits for attending Winter Clinic. Verification cards will be in your envelope that will be given out at registration. This card must be stamped for Continuing Education credit. Accreditation desks on the exhibit floor. Your name badge is your receipt of payment and should be retained for income tax purposes.

Academy of General Dentistry receives 6 credits.
ODAA members receive 4 credits.

Remember to register your staff. They need continuing education credits too!

Disclaimer

The presence of any speaker as well as their opinions expressed in the clinical program of Winter Clinic does not confer or imply endorsement by the Toronto Academy of Dentistry.

Reminder that Winter Clinic is being held on a FRIDAY so come, enjoy and stay the weekend!

Visiting Toronto?

Attending Winter Clinic at the Metro Toronto Convention Centre you will find yourself in the heart of Toronto, steps away from one of the finest entertainment districts any city can offer. Within walking distance you can dine in the finest restaurants, take in world-class entertainment or take in a sporting event!

What's Happening in Toronto During Winter Clinic. See Toronto's most loved attractions, and save time and money. This is your ticket to six unforgettable attractions and an itinerary for the best of Toronto. This booklet of tickets provides free admission, helps you bypass tickets lines and has loads of helpful information, including transportation, hours, insider's tips and more. Each attraction has its own irresistible features and sense of Toronto.

You have 9 days from first use to visit each attraction once.

CityPass is also available for purchase at any of the attractions. Tickets are void if removed. The price is \$47.00CAD for adult and \$29.75CAD for Children.

The Rogers' Centre Tour Experience

Rogers Centre Tour Experience is the best way to appreciate the wonders of the Rogers Centre, one of Toronto's most popular attractions. The tour offers a newly renovated museum area featuring a model of the Rogers Centre, memorabilia from past events, concerts and much more! See the multi-screen video wall featuring the many exciting sports and events that have been held at the facility.

Rogers Centre Tour Experience begins with a 10-minute documentary film about the construction of this incredible facility. The tour continues with a 45-minute guided walking tour of the Rogers Centre. Guests are taken to areas not usually accessible to the general public including the playing field, a Luxury Suite, Blue Jays Memorabilia Suite and team dressing room (route may vary due to event schedule).

Rogers Centre Tour Experience, contact 416-341-2770:

Adults \$12.50

Seniors \$8.50

Youth (12-17) \$8.50

Children (5-11 years) \$7.00

Air Canada Centre

7:00 p.m.

Saturday, November 5, 2005

Toronto Maple Leafs VS. Tampa Bay Lightning

For tickets, call TicketMaster 416-872-5000

Hockey Hall of Fame/PATH

The Hockey Hall of Fame was founded in 1943 to establish a memorial to those who have developed Canada's great winter sport -- ice hockey.

Incorporated in 1983, Hockey Hall of Fame and Museum ("HHFM") exists in order to collect, preserve, research and exhibit the history of the game of ice hockey, and in particular, those who have made outstanding contributions and achievements in the development of the game. The Hockey Hall of Fame is connected to downtown Toronto's "PATH" system. This is an underground network of buildings, stores, restaurants, and hotels that are connected by pathways. So, for example, if your family is staying at a hotel connected to the PATH system during the coldest day of the year in Toronto, you could leave all your winter clothing in the hotel and PATH your way to the Hockey Hall of Fame in perfect comfort.

Queens Quay Terminal

Queen's Quay Terminal is an exciting shopping experience located in the heart of Toronto's Harbourfront district.

Built in 1926, the award-winning architecture features soaring ceilings, wide open spaces, and natural sunlight. The property was purchased by Brookfield in November 1997 and since then has undergone extensive upgrades.

Visit the following features of Queen's Quay Terminal:

Over 30 shops and boutiques

Restaurants including a Food Court

Sweeping views of Lake Ontario's Toronto Harbour

Medieval Times Dinner & Tournament

The following rates are applicable for parties of 14 or fewer guests.

General Admission: Adult: \$62.95; Child (12 & under): \$43.50

Prices include four-course dinner, two-hour live show, and beverages. Tax and Gratuity not included. Rates subject to change without notice.

For reservations please call toll-free:

1-800-563-1190.

OUR ACADEMY

The TORONTO ACADEMY OF DENTISTRY, formerly the Toronto Dental Society, has been functioning continuously since 1890. It has provided leadership and service to both the profession and the community, and will continue to do so in the future.

Some of the SPECIFIC SERVICES provided are as follows:

1. The annual WINTER CLINIC.
2. The annual WINTER CLINIC/INFORMATION BOOK, a directory of dental organizations.
3. PUBLIC RELATIONS, an experienced staff person to answer the public's queries and complaints.
4. An ELECTED COUNCIL, representing all Metro Toronto dentists and their local component societies.
5. CO-ORDINATION of dental and fellowship functions within Metro Toronto.
6. DENTAL MEETINGS with excellent programs and clinicians.
7. Assistance in formation of new STUDY GROUPS.
8. HONOURARY LIFE MEMBERSHIP to recognize outstanding dentists.
9. Fellowship activities such as the annual GOLF TOURNAMENT, CURLING BONSPIEL and SKI DAY.
10. MEDIATIONS SERVICES for the public.
11. COMMUNICATION with dental auxiliary organizations.
12. Provides an ASSOCIATE PLACEMENT service.
13. THE TORONTO COMMUNITY PROFESSIONAL DENTAL ASSOCIATION which donates to charitable organizations.

MISSION STATEMENT

The TORONTO ACADEMY OF DENTISTRY, a respected leader and resource to the dental profession in the Metropolitan Toronto Area since 1890, is dedicated to enhancing the professional lives of its members through guidance, education and service.

CORE VALUES

- *Advancement of the art and science of dentistry
- *To promote the highest ideals of dental practice
- *To cultivate harmony and good fellowship among the members of the dental community

THE VISION

The Toronto Academy of Dentistry is a not for profit association representing the dentists of Toronto. We are recognized as a leading, responsible, accountable and benevolent link between the dentists and our community.

THE PROCESS

A governing council of elected members will guide its actions in accordance with an established constitution.

THIS IS OUR ACADEMY.
KEEP IT STRONG.
SUPPORT IT;
ENJOY IT.

Winter Clinic Chairman

It is our pleasure to welcome the dental community to the 68th Toronto Academy of Dentistry's Winter Clinic.

We are presenting this year's Conference on Friday November 4, 2005. In keeping with the success of last year's theme, we decided to continue with the "A Hands-On Experience". Many dental exhibitors will make their products available for you to try, while you and your staff roam the exhibit floor. You already know that this is a great opportunity for you to find out which dental products work best in your hands; while having all the different dental supply companies within steps of each other.

This year's Winter Clinic will also continue to offer world-renowned clinicians, presenting interesting topics for every member of the dental team. Topics range from those advancing the art and science of dentistry, to other subjects on how to speak to anyone about anything! And this year, you can choose a CD of a lecture that you missed but really wanted to attend!!!

We are continuing a great tradition, and this year we are adding some exciting events. We have added a technical tent where you will be able to obtain free advice on your personal and business computer needs; you will recognize many of our colleagues' names just by strolling down the Walk of Fame; The Red Carpet will lead you to a wonderful Theatre area where you can relax and have some popcorn and watch faces from the past and present! Join us at 4:00 for a wonderful fashion show featuring Allan Cherry Fashions and some of our own talent. This will be followed by a cocktail reception and the announcement of one lucky winner of a trip for two to Italy!!!

And last but not least by attending Winter Clinic, you are not the only person to benefit. Through the Toronto Academy of Dentistry's Endowment Fund, many organizations like the Children's Aid Foundation, Bloorview MacMillan Children's Foundation, The Hospital for Sick Children, Kids Help Phone, March of Dimes, About Face, Daily Bread Food Bank, Easter Seals, the University of Toronto Faculty of Dentistry, and Women in Transition, benefit greatly from the donations made possible by your participation at Winter Clinic.

We would like to thank the Winter Clinic Committee, the Academy staff, the ODHA, the ODAA, the Dental Industry Association of Canada and our sponsors for their input and commitment that makes Winter Clinic such a success.

Come and enjoy the learning experience, the "Hands-On Experience" of the exhibit floor and the camaraderie of the day, Friday, November 4, 2005. *This is your Clinic, Your City – Let's have Fun!*

GREETINGS FROM...

THE DENTAL INDUSTRY ASSOCIATION OF CANADA

Guylaine McCallum, President

It is with great pleasure that I extend to you, on behalf of the members of the Dental Industry Association of Canada, a warm welcome to the Toronto Academy of Dentistry's 68th Annual Winter Clinic.

The 2005 program has an outstanding assortment of dental speakers and is complemented by strong industry showing on the exhibit floor – this proven combination ensures that there is something for everyone again this year.

As always, we encourage you to visit all of the exhibitors and spend some time reviewing their products and services.

Thank you for continued patronage and we look forward to serving your needs. Please enjoy the show.

THE ONTARIO DENTAL ASSISTANTS ASSOCIATION

Constance Steinborn CDA II CDR, President

On behalf of Ontario Dental Assistants Association (ODAA), I encourage you to attend the 2005 Winter Clinic. This event will feature excellent presentations on topics relevant to the entire dental team. In fact, ODAA will be sponsoring a workshop on Infection Control, specifically geared to dental assistants. Please drop by our Membership Booth where you can meet with me and the staff of ODAA. I look forward to talking to you.

THE ONTARIO DENTAL HYGIENISTS' ASSOCIATION

Michelle Clement, RDH, President

It is with great pleasure that I welcome you to the Toronto Academy of Dentistry's 68th Annual Winter Clinic. The Academy and its committee have worked diligently to put together an exciting line-up of speakers and topics that are sure to be of interest to all members of the dental team. And don't miss the exhibit floor featuring the latest in dental equipment and oral healthcare products.

As "life-long" learners in pursuit of professional development and current research and procedures, we are able to enhance our high standard of care for our clients. Dental hygienists are required, as regulated health professionals, to maintain a professional portfolio and to meet quality assurance goals. Winter Clinic provides this opportunity as well as a social venue to meet and talk with colleagues, exhibitors and other members of the dental team.

I would like to acknowledge and thank Catherine Grater-Nakamura, RDH, for her volunteer work as ODHA representative to the Winter Clinic committee.

Mayor
DAVID MILLER

A Message from the Mayor

It is with great pleasure that I extend greetings and a warm welcome to everyone attending the 68th annual Winter Clinic Meeting hosted by the Toronto Academy of Dentistry.

For dentists, dental nurses and assistants, dental hygienists and exhibitors, this one-day convention offers clinical presentations and a trade show. In a world of exciting and cutting-edge developments, this Clinic offers and promotes the tools that let you build in your skills.

It provides excellent networking activities and an opportunity to discuss issues of mutual interest or concern, exchange knowledge and ideas, best practices and the latest technological advances in the field of dentistry.

On behalf of Toronto City Council, I congratulate the Toronto Academy of Dentistry, exhibitors and sponsors for making this event possible. To everyone, my very best wishes for an enjoyable and informative day.

Yours truly,

A handwritten signature in dark ink that reads "David Miller". The signature is fluid and cursive, with the first name "David" and last name "Miller" clearly distinguishable.

Mayor David Miller

LUNCH AND LEARN PROGRAM

Fourth Year Dental Students, 2004 and 2005 Grads: Lunch and Learn Program

A special invitation to 2004 and 2005 dentistry graduates and fourth year dental students to attend Ontario Academy of General Dentistry's Lunch and Learn Program at the Toronto Academy of Dentistry's Winter Clinic on Friday November 4, 2005.

The "HI-TECH, HI-TOUCH" Dental Office

Antonio Mancuso, DDS

Welland, Ontario

Time: 12 noon – 1:00 P.M.

Room: 203CD

About the Speaker

Dr. Mancuso graduated from the University of Toronto in 1985 and has maintained a general dental practice in Welland, Ontario ever since.

He is a fellow in the following Academies: The Academy of General Dentistry, the Academy of Dentistry International, the Pierre Fauchard Academy and the International Academy for Dental Facial Esthetics.

Dr. Mancuso has written articles for the newspaper and has appeared on Canada AM and local cable network. He has published articles for dental journals and has lectured to various dental organizations in both Canada and the United States.

He is the past President of the Ontario AGD and current OAGD Mastertrack Coordinator. He is also a board member of the NPDA an ODA component society. He also serves on the editorial board of Spectrum-the CJDT. Dr. Mancuso conceived and developed "Millennium Aesthetics in Niagara" - a live hands-on program that teaches dentists and staff anterior aesthetic diagnosis and treatment.

About the Program

Dr. Mancuso will discuss how he has incorporated technology into his new general practice facility. This new, state of the art facility has been specifically designed to incorporate the latest high-tech equipment in order for it to also be utilized as a teaching facility.

This overview will encompass how technology is utilized to transfer images to laboratories, dental specialists, insurance companies and to the patients themselves of proposed treatment and of treatment results.

His high-tech armamentarium includes, soft tissue diode laser, argon curing laser, CEREC 3-D, digital radiography, Live DDM dental management system fully integrated through all 8 operatories, intra-office radio communication system, chair mounted flat screens for patient education and comfort, integrated intra-oral video with multi-op functionality, and aesthetic digital simulation capabilities. From the lecture room the dental team can watch a live feed of treatment taking place in any of the operatories. This boasts a learning environment where everyone can see what is being demonstrated in a non-crowded environment.

Aesthetic cases as a result of this facility will also be shown.

This Program is Limited To 4th Year Dental Students and New Dentists.

THIS IS A LIMITED ATTENDANCE SEATING SESSION REGISTER TODAY!

Name: _____

Daytime Ph. # _____ Fax # _____

TO ATTEND THIS LUNCH & LEARN YOU MUST ALREADY BE REGISTERED FOR WINTER CLINIC. (Registration form on page 11)

CONFIRMATIONS WILL BE FAXED WHEN BOTH REGISTRATION FORMS ARE RECEIVED

THIS LECTURE IS SPONSORED BY THE ACADEMY OF
GENERAL DENTISTRY

Invisalign® GP Certification: Level 1 Two-day Limited Attendance Program in conjunction with Winter Clinic

Metro Toronto Convention Centre, North Building, 255 Front Street West, Toronto

Leil Lowndes, New York, N.Y.

Time: 9:00 a.m. – 11:30 a.m.
Room: 206CD
Chair: Dr. Bonnie Chandler

Of Interest To:

Dentists	Dental Hygienists
Clinical Assistants	Administrative Assistants
Dental Technologists	

ABOUT THE SPEAKER

Leil Lowndes is the author of six books on communication skills including the best selling "How to Talk to Anyone" and the 8-hour award winning audio program, "Conversation Confidence." She has spoken, consulted, and conducted training programs in every major city in the U.S and Canada. President of Applause, Ltd., Leil's clients span a wide range of industries: The Walt Disney Company, The Young Presidents' Organization, Kodak, Sales & Marketing Council, Keds Shoes, the government of Bermuda and the U.S. Peace Corps among others. In addition to engrossing audiences on hundreds of TV and radio shows, Leil's work has been acclaimed by The New York Times, the Chicago Tribune and Time magazine. Leil is the recipient of the Jesse H. Neal editorial achievement award for business writing.

ABOUT THE PROGRAM

Don't you hate it? The prospect of walking into a room that's packed with strangers and striking up a conversation. In this advanced professional networking session, you will learn to work a convention or business gathering like a politician works a room. First you will learn to add punch to your small talk – and then quickly transition into more powerful communicating. You will become skilled at reading and speaking the hidden language of inflection, tone, and body movement. You will be able to take control of the conversation and turn it to your advantage – so you can walk into any gathering, and walk out with new professional contacts and patients. You'll also master professional speakers' techniques to help you be charismatic and persuasive at the podium. After this session, you will be a confident and influential communicator whether chatting with one person, or giving a speech to 1,000.

SOME OF THE SKILLS YOU WILL MASTER IN THIS SESSION

- Maximize your networking opportunities
- Make a strong first impression
- Be perceived as a VIP when you meet anyone
- Give your handshake and eye contact extra power
- Discover the best answer to "what do you do?" (No, it's not "I'm a dentist.")
- Become completely comfortable with small talk
- Learn to turn it into a professional opportunity
- Make new acquaintances feel like you are an old friend at once
- Discover ways to sound like an insider in any crowd
- Learn the most opportune place to stand at a gathering
- Strengthen your existing professional contacts
- Give your everyday conversations more punch and power
- Learn how to be perceived as exceptionally professional
- Discover ways to talk so people listen
- Give more powerful professional presentations, standing or seated

WHO SHOULD ATTEND THIS PROGRAM?

Simply said, this program is for everyone. Arrive early to avoid disappointment! What other great communicators say about Leil's unique techniques

"You'll not only break the ice, you'll melt it away with your new skills".

LARRY KING, talk show host

"The lost art of verbal communication may be revitalized by Leil Lowndes".

HARVEY MACKAY, author "Swim With the Sharks"

"Leil... teaches you how to talk and communicate with heart and soul that will get results NOW".

MARK VICTOR HANSEN, master motivator and author of the best selling "Chicken Soup for the Soul" series

"To be a winner, you've got to talk like one, walk like one, and act like one. Leil gives you solid take home techniques to be a winner".

LES BROWN, Human potential mentor and author of the best selling "Live Your Dreams"

Ms Lowndes will be signing copies of her book at the Indigo Table on the Exhibit Floor.

10% of all sales of these books will be donated back to The Children's Aid Foundation

Bring Back That Old-Fashioned Chair-side Manner... and Keep Your Patients for Life

Leil Lowndes, New York, N.Y.

Time: 1:30 p.m. – 3:30 p.m.

Room: 206CD

Chair: Dr. Shayne Lipton

Of Interest To:

Dentists	Dental Hygienists
Clinical Assistants	Administrative Assistants
Dental Technologists	

ABOUT THE SPEAKER

Leil Lowndes is the author of six books on communication skills including the best selling "How to Talk to Anyone" and the 8-hour award winning audio program, "Conversation Confidence." She has spoken, consulted, and conducted training programs in every major city in the U.S and Canada. President of Applause, Ltd., Leil's clients span a wide range of industries: The Walt Disney Company, The Young Presidents' Organization, Kodak, Sales & Marketing Council, Keds Shoes, the government of Bermuda and the U.S. Peace Corps among others. In addition to engrossing audiences on hundreds of TV and radio shows, Leil's work has been acclaimed by The New York Times, the Chicago Tribune and Time magazine. Leil is the recipient of the Jesse H. Neal editorial achievement award for business writing.

ABOUT THE PROGRAM

FACT: Patient surveys show that the communication style of the doctor is a bigger factor in their satisfaction and loyalty than the doctor's professional credentials or performance.

FACT: Doctors who communicate well with their patients are far less likely to be sued for malpractice than poor communicators.

Patients think they choose a dentist with their heads, but the heart is the real decision maker. In this eye-opening session, you will master subtle skills to establish solid rapport with patients and win their lifetime loyalty. And when patients know you care, they will recommend their friends. Many dentists make a big mistake that shrinks their practice. They underestimate the significance of their staff. All team members' communication skills play a huge role in patient retention – especially the front desk person. This session gives you methods for both the dentist and staff to be "professionally friendly" in person and on the phone.

SOME OF THE SKILLS YOU WILL MASTER IN THIS SESSION

- Discover techniques to bond quickly with new patients
- Establish strong rapport with existing patients
- Enhance your credibility and sincerity
- Make all your patients feel like you are "family"
- Learn to deal with a wide variety of patients
- Pick up on what patients are not saying – but they are thinking
- Talk so that your patients really listen
- Discover your patients' hot buttons
- Uncover objections
- Deal with inappropriate questions
- Learn to go that extra mile
- Deal more effectively and graciously with patients
- Phone techniques

WHO SHOULD ATTEND THIS PROGRAM?

This program is geared for the entire dental team. If you missed the morning session don't miss this one.

If you were fortunate enough to attend the morning session you will be back for this one too.

What other great communicators say about Leil Lowndes

"Every single person I know asks, HOW can I deal with that person? At last, Leil gives us the answers".

REGIS PHILBIN, talk show host

"Leil is the best. Absolutely the best".

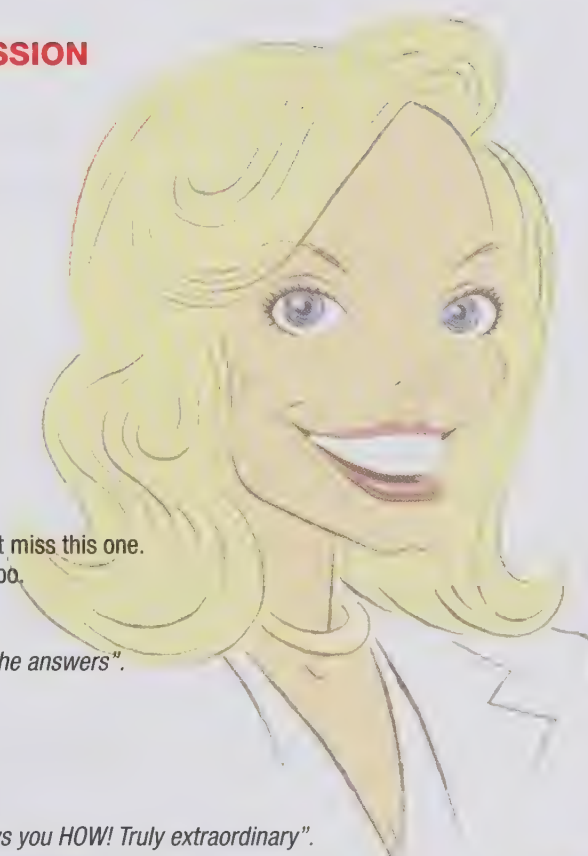

SALLY JESSY RAPHAEL, talk show host

"Your ability to communicate with power and impact can change your life – and Leil shows you HOW! Truly extraordinary".

BRIAN TRACY, America's #1 expert on sales and business, and author of Advanced Selling Strategies

Ms Lowndes will be signing copies of her book at the Indigo Table on the Exhibit Floor.

10% of all sales of these books will be donated back to The Children's Aid Foundation

Art and Science = Creativity... The Ultimate Bonding Experience

K. William "Bud" Mopper, DDS, MS, Winnetka, IL

Time: 9:45a.m. – 12:15 p.m.

1:30 p.m. – 3:30 p.m.

Room: 205CD

Chair: Dr. Muntwyler

Dr. Jody Zajacz

Of Interest To:

Dentists	
Clinical Assistants	

ABOUT THE SPEAKER

Dr. William Mopper has been creating dental esthetics for 35 years. He is an internationally renowned clinician and teacher as well as a frequent contributor to the dental literature. Dr. Mopper, also known as "Bud" to his admirers has received the "Outstanding Contribution to Cosmetic Dentistry" and the "Lifelong Commitment to Providing Excellence in Continuing Education in Cosmetic Dentistry" awards from the American Academy of Cosmetic Dentistry and the Irwin Sigel Prize in Esthetic Dentistry from New York University College of Dentistry. Dr. Mopper is responsible for educational programs and product development for Casement, Inc for which he is Co-founder and Chairman. Dr. Mopper also maintains a private practice limited to cosmetic dentistry.

ABOUT THE PROGRAM

True esthetics with the use of direct composite resin can be achieved only if one understands how to use these materials and can master the technology involved. When properly done, direct resin bonding is truly the most creative dental treatment that today's dentist can render. This presentation will explore the selection and best use of today's restorative materials. This presentation will not only show results but how to achieve the results in a stepwise fashion. This all day presentation is packed full of how-to's with no secrets held back. Esthetic dentistry has changed Bud's life and he hopes to show you how it can change yours.

LEARNING OBJECTIVES

- What materials bring overall esthetic and functional results
- Why microfills, opaques and tints are necessary as well as hybrid materials
- Material application
- Contouring, finishing and polishing techniques necessary to achieve truly lifelike results

WHAT YOU WILL LEARN

- III, IV, and V invisible restorations
- diastema closures
- restorative orthodontic corrections
- use of opaques and tints
- contour, characterize and finishing of restorations
- resin, porcelain and metal repairs that work
- philosophy of practice and communication with patients

WHO SHOULD ATTEND THIS PROGRAM?

This program is geared for dentists and clinical assistants wishing to expand their horizons and knowledge in direct restorative anterior dentistry and make bonding the 'joy' of their day.

Perio News You Can Use... Research Makes a Difference

Trisha E. O'Hehir, RDH, Phoenix, Arizona

Time: 9:00 a.m. – 11:30 a.m.

Room: 203CD

Chair: Gina Vasiliadis, RDH

Of Interest To:

Dentists	Dental Hygienists

ABOUT THE SPEAKER

Ms. O'Hehir attended the University of Minnesota where she received degrees in Dental Hygiene and Higher Education. With more than 30 years as a dental hygienist, Trisha has practiced in both private practice, and held faculty positions at the Universities of Minnesota, Washington and Arizona. In addition to extensive clinical practice experience, she is an international lecturer, Editorial Director of Hygienetown Magazine, President of the Perio Reports Press, Vice-President of the Perio-Data™ Company and Adjunct Faculty at the University of Louisville. Trisha has contributed extensively to dental hygiene literature, including the journals RDH, JPH, JDR and JADA, as well as several textbooks. She is the recipient of the Distinguished Alumni Award from the University of Minnesota, School of Dental Hygiene and the Warner-Lambert/ADHA Excellence in Dental Hygiene Award. Trisha currently lives and works in Arizona and is considered a future-focused thinker who presents thought-provoking programs combining current research, practical applications, and alternatives for the future.

ABOUT THE PROGRAM

Did you ever doze off during biochemistry class or while reading a research article? No surprise – research is written for other researchers, not clinicians. With some detective work, we'll discover research facts that make a difference. With the "Cliff Notes" of Perio Research – you'll take away "Perio News You Can Use." Trish will review the Top Ten Research Articles influencing dental hygiene today including oral irrigation, hand vs. power scaling, surgical vs. non-surgical therapy, recall intervals, needs related oral hygiene and more.

LEARNING OBJECTIVES

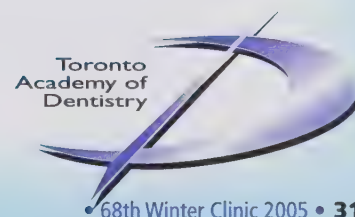

- To understand bacterial biofilms and infection
- To recognize and deal with risk factors
- To identify links between oral health and general health
- To distinguish between science and tradition
- To acquire strategies to achieve optimal oral health

WHO SHOULD ATTEND THIS PROGRAM?

This program will be of interest to dentists and hygienists

Trisha currently lives and works in Arizona and is considered a future-focused thinker who presents thought-provoking programs combining current research, practical applications, and alternatives for the future.

ABOUT THE PROGRAM

You know the challenge of treating perio patients with lots of plaque and calculus. You have the skills and knowledge to educate, motivate and bring the tissues back to health. There's a feeling of satisfaction and pride when you see the results of your hard work. For most of the people you treat, your work and your words achieve ongoing oral health and sincere appreciation. Sadly, some return several months later, looking almost as bad as when you started! For these people, you're always providing periodontal therapy, working against the clock and trying to find just the right approach to change their behavior, but they seem to think it's all just a "cleaning." To change these outcomes, we will look at your strengths, what's working in your practice and what could be better. We will explore strategies to improve patient compliance and make your dental hygiene department even more successful than it already is.

LEARNING OBJECTIVES

- To evaluate the effectiveness of your current treatment approach – the 6 month recall myth
- To recognize your areas of strength
- To learn techniques to improve your clinical outcomes
- To acquire strategies to improve patient compliance
- Sound bites that convince people they have disease and need treatment
- To make effective changes in your dental hygiene department

WHO SHOULD ATTEND THIS PROGRAM?

This program is geared for dentists and hygienists wishing to energize the dental hygiene component of their dental practice.

Review of Bone Grafting Materials, Grafting Techniques and Growth Factors for Dental Implants

Arun K. Garg, DMD, Miami, FL

Time: 9:00 a.m. – 11:30 a.m.
1:30 p.m. – 3:30 p.m.
Room: 201AB
Chair: Dr. David Hanmer
Dr. Gerry Pearson

Of Interest To:

Dentists	

ABOUT THE SPEAKER

Dr. Arun K. Garg completed his chemical engineering degree at the University of Florida. He then completed his dental degree also at the University of Florida and subsequently completed his residency training at University of Miami/Jackson Memorial Hospital. He is a full-time Professor of Surgery in the Division of Oral/Maxillofacial Surgery at the University of Miami School of Medicine, where he also serves as director of the Center for Dental Implants as well as the Director of the Residency Training Program and a visiting professor in the Department of Periodontics at the University of Florida. Since 1989, Dr. Garg has extensively conducted hands-on surgical training workshops using cadaver specimens, as well as live surgical courses on a variety of bone grafting, implant placement and soft tissue procedures. He has published over 80 articles, over 12 book chapters, and three well recognized textbooks which have been currently translated into eight different languages. He is editor of Dental Implantology Update and serves on the editorial boards of four other leading journals. Dr. Garg is currently president of the ICOI.

ABOUT THE PROGRAM

A review of graft materials will be presented with specific indications of graft material choices and the rationale behind it. This will be presented in the context of clinical applications of bone grafting for dental implants. These concepts however can be applied to a wide variety of bone grafting procedures. The amplification of bone healing with growth factors is an available and practical tool for enhancing the rate of bone formation as well as soft tissue maturation will also be discussed. Finally, the concepts presented will be further illustrated by presenting clinical cases.

WHAT YOU WILL LEARN

- Indications for grafting in implant situations
- Graft material selection
- Growth factors for enhancement

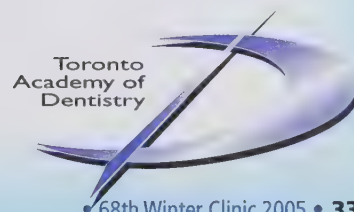

WHO SHOULD ATTEND THIS PROGRAM?

This program will provide vital information to those practitioners who are performing the surgical placement of implants in their practice and to those who wish to learn additional surgical options for their patients who are candidates for implant treatment.

Abracadabra: The Trick to a Healthy Smile (A Dental Magic Seminar)

The Great Loudini Returns to Winter Clinic

Louis Melamed, a.k.a. The Great Loudini, Mahtomedi, MN

Time: 10:15 a.m. - 12:15 p.m.
1:30 p.m. - 3:30 p.m.
Room: 205AB
Chair: Dr. Paul Okorofsky
Dr. Ron Richardson

Of Interest To:

Dentists	Dental Hygienists
Clinical Assistants	Administrative Assistants
Dental Technologists	

ABOUT THE SPEAKER

Louis Melamed is a long-standing member of the International Brotherhood of Magicians and President of Dentallusions Inc. He has a long association with the dental industry and has participated in every major dental meeting in North America.

ABOUT THE PROGRAM

The Toronto Academy of Dentistry is proud to welcome back "The Great Loudini" and present the Dental Magic Seminar. This is a hands on workshop that will educate, and entertain. Attendees will learn easy to perform dental related magic tricks using everyday office props such as cotton rolls, rubber dam, paper bibs, etc., that will be sure to put a smile on your patient's face without any cosmetic surgery. Bring a box of floss to life; make the water in a rinse cup disappear in a split second, float objects in thin air and more. Each trick will be fully explained, and a manuscript will be provided describing the secrets revealed. The morning and afternoon sessions are each completely different. You do not have to attend the first session to attend the second.

Learning Objectives

- To evaluate the effectiveness of your current treatment approach – the 6 month recall myth
- To recognize your areas of strength
- To learn techniques to improve your clinical outcomes
- To acquire strategies to improve patient compliance
- Sound bites that convince people they have disease and need treatment
- To make effective changes in your dental hygiene department

WHO SHOULD ATTEND THIS PROGRAM?

This hands-on workshop is for dentists and staff of any kind of practice who wish to put a smile on their patients' faces in a relaxed and friendly atmosphere. It is also for anyone wishing to smile and laugh the day away!

WHAT PEOPLE HAVE SAID ABOUT THIS PROGRAM

"Wow! From the beginning, with the cotton roll tricks all the way through the end, it was one continuous dynamic sensory trip"

"The presentations were flawless and phenomenal."

"Thanks for a wonderful, exciting and funny session"

HIGH TECH, LOW STRESS: Developing the Chartless Practice

Lorne Lavine, DMD, Sherman Oaks, CA

Time: 8:30 a.m. – 11:00 a.m.

Room: 206 AB

Chair: Dr. Gary Fortinsky

Of Interest To:

Dentists	Dental Hygienists
Clinical Assistants	Administrative Assistants

ABOUT THE SPEAKER

Dr. Lorne Lavine, founder and president of Dental Technology Consultants, has more than 20 years invested in the dental and dental technology fields. A graduate of USC, he earned his D.M.D. from Boston University and completed his residency at the Eastman Dental Center in Rochester, NY. He received his specialty training in Periodontics at the University of Washington and went into private practice in Vermont until moving to California in 2002, to establish DTC, a company which focuses on the specialized technological needs of the dental community. Dr. Lavine writes for many well-known industry publications and lectures around the world. He is the regular Technology columnist for Dental Economics Magazine. His articles have appeared in Dentistry Today, Dental Economics, Dental Equipment and Materials, Dental Practice Report, New Dentist, Dental Angle Online, and DentalTown magazine, where he is a moderator of their Computer and Software Forums.

ABOUT THE PROGRAM

The modern dental practice is evolving at a rapid pace. Systems that were once primarily paper-based are moving toward a chartless, digital record. Dentists are now taking advantage of many newer technologies to create a more efficient practice. However, navigating through the choices can be like walking through a minefield. There are many issues that must be addressed to create this ideal environment. Dentists not only have to choose the best hardware, practice management, image management, digital camera, intraoral camera, and digital radiography systems for their offices, but determine which ones will work correctly with each other to create a seamless integration. The options can seem overwhelming.

As a dentist contemplating an upgrade, we are faced with many of these difficult questions. The goal of this presentation will be to provide an update on the latest state-of-the-art technologies, and the process to figure out which of these different technologies can work together. We will discuss the multitude of options available for digital imaging. The pros and cons of both intraoral and extraoral cameras will be compared, as will the different digital radiography systems. We will also evaluate the steps that must be taken to plan out the dental operatory for digital integration. The overall goal of the presentation is to avoid a \$50,000 mistake and achieve the office of your dreams.

WHO SHOULD ATTEND THIS PROGRAM?

This program will provide vital information to those practitioners who are performing the surgical placement of implants in their practice and to those who wish to learn additional surgical options for their patients who are candidates for implant treatment.

WHAT OTHERS HAVE SAID ABOUT THIS PROGRAM

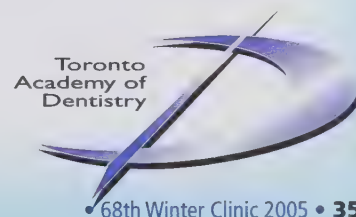

"Lorne is a member of my Speaking/Consulting Network and WHAT an addition to our group. He's one of the most knowledgeable people in dentistry on technology. Or, the training they had along with a faulty conversion from one system to the next was poor. Now they are trying to integrate the new chairside "toys" and their computer and management problems are escalating at a higher rate than they can control. Lorne can spend time with you and your office and help you avoid these pitfalls which the computer companies never expected or wanted you to have."

Linda Miles, CMC

Management of Accidental Procedures During Root Canal Treatment

**Mahmoud Torabinejad, DMD, MSD, PhD,
Loma Linda California**

Time: 1:30 p.m. – 3:30 p.m.

Room: 206F

Chair: Dr. Sam Salama

Of Interest To:

Dentists	

ABOUT THE SPEAKER

Dr Torabinejad is a board certified endodontist with a Masters degree from the University of Washington and a PhD from University of London. He is a Professor of Endodontics and Director of Graduate Endodontics at Loma Linda University School of Dentistry in Loma Linda, California and practices two half days. As a researcher and international lecturer on dental and endodontic issues and procedures, Dr. Torabinejad has made over 150 national and international presentations in more than 30 countries. In addition to co-authoring two textbooks in non- surgical and surgical endodontics he has authored more than 200 publications on various endodontic and dental topics.

Dr. Torabinejad received the Ralph F. Somers award of the American Association of Endodontists in 1986, the Louis I. Grossman award of the American Association of Endodontists in 1993, and he received the Philanthropist award of the AAE Foundation in 1997. He is the 1998 recipient of the Louis I. Grossman award of the French Society of Endodontists and is a past president of the American Association of Endodontists.

ABOUT THE PROGRAM

Root canal treatment, like other disciplines of dentistry, is sometimes associated with unwanted and unforeseen circumstances that are collectively called procedural accidents. These mishaps can occur during diagnosis, access preparation, cleaning and shaping, obturation as well as during post space preparation. Knowledge of the etiologic factors involved in these accidents is essential for their prevention. Methods of recognition and treatment as well as their effects on success and failure of endodontics are also important.

PROGRAM OBJECTIVES

- To prevent procedural accidents during root canal treatment.
- To diagnose procedural accidents during root canal treatment.
- To manage successfully procedural accidents during root canal treatment.
- To avoid lawsuits when procedural accidents occur during root canal treatment.

TOPICS PRESENTED

- Prevention and treatment of Pulp Chamber perforations
- Prevention and treatment of Ledge formation during cleaning and shaping
- Prevention and treatment of Separated instruments during cleaning and shaping
- Prevention and treatment of Coronal root perforations during cleaning and shaping
- Prevention and treatment of extrusion of root canal irrigants into periapical tissues.
- Prevention and treatment of Obturation short of prepared working length
- Prevention and treatment of Obturation past the prepared working length
- Prevention and treatment of root fractures
- Prevention and treatment of Post space perforations

WHO SHOULD ATTEND THIS PROGRAM?

This presentation offers insight and guidelines for the participants on how to avoid and manage accidental procedures during root canal treatment and is intended for progressive dentists who perform root canal treatment.

The Asymptomatic Impacted Third Molar – The Wisdom of Wisdom Tooth Removal

Paul Chapnick, DDS, FRCD(C), FADSA, Toronto ON

Time: 10:45 a.m. – 12:15 p.m.

Room: 201EF

Chair: Dr. Andrew Kay

Of Interest To:

Dentists	Dental Hygienists
Clinical Assistants	

ABOUT THE SPEAKER

Dr Paul Chapnick is a 1962 graduate of The University of Toronto Dental Faculty. He completed oral surgery training at Boston University and Harlem Hospital in New York in 1965. He served on the teaching staff at The University of Toronto Dental School for 35 years and is a former chair of the Department of Oral and Maxillofacial Surgery at Mount Sinai Hospital and Dental Department of Northwestern Hospital. Dr. Chapnick is a Fellow of The Royal College of Dentists of Canada, Fellow of the American College of Oral and Maxillofacial Surgeons, Diplomat of the American Board of Oral and Maxillofacial Surgeons and Diplomat of the National Dental Board of Anaesthesiology. He is a Fellow of the Pierre Fauchard Academy, as well as past president of the Ontario Society of Oral and Maxillofacial Surgeons and the North Toronto Dental Society. Currently Paul maintains a private practice limited to Oral and Maxillofacial Surgery and is on staff of Humber River Hospital and Baycrest Hospital in Toronto.

ABOUT THE PROGRAM

Practitioners must frequently decide when to recommend extraction or retention of third molar teeth for their patients. A number of recent and ongoing studies have provided significant new information about the incidence of pathology associated with impacted third molar teeth, complications linked to their retention and removal, and related issues associated with quality of life. This presentation will distill the recent literature into a straightforward protocol for addressing the question of third molar removal in both general and specialty practice.

LEARNING OBJECTIVES

- Brief review of surgical and anaesthesia protocols
- Analgesics and antibiotics in oral surgery
- Post operative protocol
- Management of complications such as “Dry Socket and Its Prevention”.

WHO SHOULD ATTEND THIS PROGRAM?

This program is geared for entire dental team, including specialists, hospital residents and hygienists.

CATCH THE WAVE

Aesthetic Restorative Dentistry

James Braun, DDS, MS, Saginaw, Michigan

Time: 9:00 a.m. – 11:30 a.m.
1:30 p.m. – 3:30 p.m.
Room: 201CD
Chair: Dr. Nick Sanci
Dr. Sheldon Cooper

Of Interest To:

Dentists	
Clinical Assistants	
Dental Technologists	

ABOUT THE SPEAKER

Dr Braun is a certified prosthodontist with a Master's degree from the University of Michigan. He has presented at district, state, national and international meetings including the Yankee Dental Congress and the International College of Prosthodontics. He has published original articles in the Journal of Prosthetic Dentistry, Dentistry Today as well as state dental journals. Dr. Braun has a full-time specialty practice limited to Prosthodontics and has had staff appointments at the University of Michigan School of Dentistry and hospitals in Ann Arbor Michigan and Saginaw Michigan. Dr. Braun also acts as a consultant to major companies in the dental industry.

ABOUT THE PROGRAM

The theme of this presentation is to reflect current perspectives on the field of esthetic restorative dentistry. The discipline is uniquely influenced by dental materials, new technologies (clinical and laboratory), clinical techniques and public awareness. It is a dynamic, popular field of exacting science blended with artistic flavor. The appeal and challenge of this category is the ability to harmonize a wonderful appearance within the demands of the oral environment, a true measure of success.

PROGRAM OBJECTIVES

- To highlight premier dental materials and equipment involved with the esthetic restorative dentistry.
- To offer an overview of all clinical steps necessary while performing these activities and simplifying the task.
- Admired results are dependent on the selection of the proper restorative system (both clinical and laboratory) and forging ahead with clinical confidence.

TOPICS PRESENTED

Morning session:

- Comparison of all ceramic restorative systems
- Preparation guidelines for ceramic crowns
- Impression technique with VPS materials
- Provisionals construction utilizing bis acrylic resins
- Use of adhesives resins cements as luting agents

Afternoon session:

- Digital photography, shade guide selection, spectrophotometers and lab dialogue
- Esthetic direct post and cores construction
- Designing porcelain laminate veneer cases
- New generation self-etching adhesives
- Application of universal direct composite systems

WHO SHOULD ATTEND THIS PROGRAM?

This seminar offers insight and guidelines for the clinical implementation of aesthetic dental treatment and is intended for the entire progressive dental team.

THIS LECTURE IS SPONSORED BY COLTENE/WHALEDENT

Early Orthodontic Treatment... When is it Appropriate?

Gerry Solomon, DDS, Dip. Ortho, Toronto, ON

Time: 8:30 a.m. – 10:00 a.m.
Room: 205AB
Chair: Dr. Shiva Sharmand

Of Interest To:

Dentists	Dental Hygienists
Clinical Assistants	Administrative Assistants

ABOUT THE SPEAKER

As a practicing orthodontist, Gerry has been treating children and adult patients in his mid-town Toronto office for more than 25 years. When not seeing patients, he teaches part-time in the Undergraduate and Graduate Orthodontic Departments at the University of Toronto. He has served as president of the Ontario Association of Orthodontists and is currently president of the Canadian Association of Orthodontists. He is also co-director of a five-day "hands-on" CE course, entitled *"Orthodontics for the General Practitioner"*, which has received critical acclaim at the University of Toronto and Dalhousie University. Gerry is an honoured recipient of the Ontario Association of Orthodontists Distinguished Service Award and the University of Toronto Twenty-Five Year Service Award. He is a Fellow of the Academy of Dentistry International, the Pierre Fauchard Academy, the International College of Dentists, and the American College of Dentists.

ABOUT THE PROGRAM

Early orthodontic assessment, as recommended by both the Canadian and American Associations of Orthodontists, gives the clinician the opportunity to: a) evaluate developing sagittal, vertical and transverse problems, and b) to detect problems such as arch length discrepancies, oral habits, asymmetries, impactions and compromises in airway.

There are many arguments for and against early treatment; most are anecdotal, few are evidence-based. For the general practitioner who would like to offer select orthodontic services to their young patients, this lecture will illustrate a number of clinical situations which would benefit from early intervention. Prudent interceptive treatment can provide a young patient with significant long-term benefits and enhanced self-esteem, and may preclude the need for later more comprehensive treatment.

WHAT YOU WILL LEARN

- review of arguments for and against early treatment
- the importance of diagnosis and the recognition of malocclusions suitable for early treatment
- clinical situations amenable to early intervention, which may fall within the "comfort level" of the prudent general practitioner.

WHO SHOULD ATTEND THIS PROGRAM?

This lecture will be of value to all members of the dental team, especially if treating youngsters is a significant part of the scope of their practices.

Dispelling the Myths of Local Anesthesia/ Troubleshooting the Mandibular Block

**Brian Chanpong, DDS, MSc. (Dental Anesthesia),
Vancouver, BC**

Time: 8:30 a.m. – 10:30 a.m.

Room: 201EF

Chair: Dr. Stephen Tsotsos

Of Interest To:

Dentists	
Clinical Assistants	

ABOUT THE SPEAKER

Brian Chanpong, DDS MSc. (Dental Anesthesia) completed his undergraduate dental degree at the University of Southern California and a three year residency in anesthesia at the University of Toronto. He is a Diplomate of both the American Dental Board of Anesthesiology and the National Dental Board of Anesthesiology. At UBC, he is a clinical assistant professor teaching dental students local anesthesia and nitrous oxide and oxygen. As a member of the accreditation committee at the Alberta Dental Association and College and the College of Dental Surgeons of BC, he inspects general anesthesia facilities for dentistry. Dr. Chanpong maintains an out-patient anesthesia clinic that provides general anaesthesia and sedation services for dentists.

ABOUT THE PROGRAM

Fact or Fiction? Does lidocaine cause cancer? Can Tums increase the success rate of a mandibular block? These claims and many other myths of local anesthesia have been passed around for many years. Not surprisingly, with access to unlimited information on the Internet, one of these claims may be presented at your dental office. The first part of the lecture discusses the different myths of local anesthesia and whether or not each of these claims can withstand evidence-based dentistry.

The second part of the lecture is devoted to the mandibular block. Reasons why the standard inferior alveolar nerve block fails will be discussed, and different mandibular techniques and supplemental blocks used to increase success rates will be reviewed.

LEARNING OBJECTIVES

- Dispel common myths of local anesthesia
- Calculate the maximum doses of LA
- Recognizing the symptoms of LA toxicity and differentiating them from psychogenic reactions
- Understanding mandibular block failure
- Reviewing various mandibular block techniques
- Supplementary mandibular blocks

WHO SHOULD ATTEND THIS PROGRAM?

This program is geared for dentists who wish to improve their success in the safe and effective administration of local anesthesia to their patients.

THIS LECTURE IS SPONSORED BY SEPTODONT of CANADA INC./NOVOCOL

Clinical Assistants	

ABOUT THE SPEAKER

Brian Chanpong, DDS MSc. (Dental Anesthesia) completed his undergraduate dental degree at the University of Southern California and a three year residency in anesthesia at the University of Toronto. He is a Diplomate of both the American Dental Board of Anesthesiology and the National Dental Board of Anesthesiology. At UBC, he is a clinical assistant professor teaching dental students local anesthesia and nitrous oxide and oxygen. As a member of the accreditation committee at the Alberta Dental Association and College and the College of Dental Surgeons of BC, he inspects general anesthesia facilities for dentistry. Dr. Chanpong maintains an out-patient anesthesia clinic that provides general anaesthesia and sedation services for dentists.

ABOUT THE PROGRAM

This lecture is not intended to be a comprehensive CE course for oral sedation, but rather an update for those who are currently providing this service for their patients and an introduction for those practitioners who are interested in adding oral sedation to their practice. In this lecture, the following topics will be discussed:

- recent deaths in the dental office
- brief overview of the pharmacology of currently used oral sedatives
- differences between the adult and pediatric patient (anatomy, physiology and psychology)
- current guidelines and monitor recommendations

LEARNING OBJECTIVES

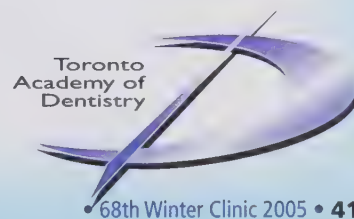

Pediatric oral sedation:

- Overview of the differences between the adult and pediatric patient
- Airway anatomy
- Physiology
- Psychology
- Minimizing the risks of pediatric oral sedation
- Monitoring equipment (what to get and where to buy it)
- RCDSO guidelines

WHO SHOULD ATTEND THIS PROGRAM?

This program is geared for those dentists who are currently providing sedation services to their pediatric patients and also those practitioners who are interested in adding oral sedation to their practice.

THIS LECTURE IS SPONSORED BY SEPTODONT of CANADA INC./NOVOCOL

A Dentist, a Lawyer, the College

Lionel Lenkinski DDS, Cert. Endo
Matthew Wilton, LLB,
Irwin Fefergrad BA, BCL, LLB,

Time: 8:30 a.m. – 11:00 a.m.

Room: 203AB

Chair: Dr. John Jenkins

Of Interest To:

Dentists	Dental Hygienists
Clinical Assistants	Administrative Assistants

ABOUT THE SPEAKERS

Dr. Lionel Lenkinski

Dr. Lenkinski is a practicing endodontist in Toronto. He has developed a particular interest in risk management and standard of care issues as they relate to the practice of dentistry, and is frequently called upon as an expert in various legal proceedings. Lionel is a founding member and Past-President of the Canadian Dental Protective Association. He is currently a risk management and case management advisor to CDPA.

Matthew Wilton, LL.B

Matthew Wilton is a litigation lawyer specializing in health law and has been assisting dentists in RCDS matters, principal associate disputes and employment law matters since 1991. He has appeared before the RCDS Discipline Committee, the Ontario Divisional Court and the Ontario Court of Appeal on behalf of health professionals including dentists, physicians, psychologists, nurses and physiotherapists. In addition to assisting the Canadian Dental Protective Association since its inception in 1994, Mr. Wilton has published articles for the "Ontario Dentist", "Dispatch" and the "The Daily Discipline".

Irwin W. Fefergrad, B.A., B.C.L., LL.B

Irwin W. Fefergrad is currently the Registrar of the Royal College of Dental Surgeons of Ontario. He is only the ninth person to serve in this capacity since the founding of the College over 130 years ago. Called to the Ontario Bar in 1973, his legal practice emphasized commercial litigation and administrative tribunal cases. Since 1989, he has been certified by the Law Society of Upper Canada as a Specialist in Civil Litigation.

In May 2001, he was named Adjunct Professor at the University of Western Ontario, Faculty of Medicine and Dentistry, School of Dentistry. In August 2001, he accepted an appointment as Assistant Professor at the University of Toronto, Faculty of Dentistry.

In September 2003, Mr. Fefergrad was appointed to the Board of the Royal College of Dentists of Canada. He is also a director of the founding board of directors of the Canadian Dental Regulatory Authorities Federation.

ABOUT THE PROGRAM

This presentation is a panel discussion between, Mr. Irwin Fefergrad, RCDSO Registrar, Mr. Matthew Wilton, Lawyer, and Dr. Lionel Lenkinski, Endodontist. The challenges of every day dental practice will be discussed through actual case examples, giving the three perspectives of the participants. At the end of the presentation, those in attendance will have a better understanding of situations that are of immediate concern to patients and practitioners and how better to mitigate them.

WHO SHOULD ATTEND THIS PROGRAM?

This program will be of interest to the entire dental team but more specifically for dentists wishing to keep abreast of current thoughts and principles on avoiding legal proceedings with their patients and being prepared should you be involved in a dispute.

THIS PROGRAM IS SPONSORED BY CANADIAN DENTAL PROTECTIVE ASSOCIATION

Dental Office Design from Concept to Completion

Michael Kavanagh – Moderator

Jacques Leonard,

Dan Burns & Robert Flacco

Time: 1:30 p.m. – 3:30 p.m.

Room: 203AB

Chair: Dr. Shiva Sharmand

Of Interest To:

Dentists	Dental Hygienists
Clinical Assistants	Administrative Assistants

ABOUT THE SPEAKER

Jacques Leonard is head of Paterson Dental's national planning team and principal of JLDA Design Inc. He has overseen an average of 300 dental office projects a year for the last 20 years across Canada. Michael Kavanagh is the equipment manager of Paterson Toronto branch and heads the largest equipment team in the Paterson Dental Canada organization. He has been integral in the construction and upgrading of countless facilities since entering the field in 1978. Dan Burns is an equipment specialist with a focus on digital radiography integration and Robert Flacco is a team leader and equipment specialist having been in the dental industry for almost 25 years.

ABOUT THE PROGRAM

Whether you are planning a new office, renovating an existing facility, updating and revitalizing or just interested in seeing what the latest in dental office design has to offer, this program will be of interest to you. This is a wonderful opportunity to learn from the experts and avoid costly mistakes in material and equipment flow. What is the best flooring, lighting considerations, and do you renovate or start from scratch? These and other concepts will be explored and discussed.

WHAT YOU WILL LEARN

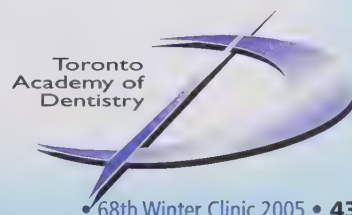

- New trends in design, materials and equipment
- Implications of construction bylaws
- Space considerations and traffic flow
- Ergonomic considerations
- Timelines
- How to finance the project

WHO SHOULD ATTEND THIS PROGRAM?

This program will be of interest to any dentist considering building a new office, renovating an existing facility or just wishing to freshen up and make minor updates. It is a wonderful opportunity to "ask the professionals - how to."

Infection Control for Dental Assistants

Tracey Pedersen, CDA II, CDR
Toronto, ON

Time: 1:30 p.m. - 3:30 p.m.

Room: 202AB

Chair: Bonnie Darling, CPDA

Of Interest To:

Clinical Assistants	Administrative Assistants

ABOUT THE SPEAKER

Tracey Pedersen is a Certified Level II dental assistant who graduated from George Brown College in 1991. Upon finishing her dental assisting program, Tracey worked for a year and a half in orthodontics. For the last 12½ years she has been steadily employed in Dr. Ronald Temple's dental practice as a certified Level II dental assistant, a certified dental receptionist and as the office manager.

Additionally, Tracey works as a part time instructor at George Brown College; sits on the National Dental Assisting Examining Board (NDAEB) Examination Development Committee; served a two-year term as President of the Etobicoke Affiliate and currently is the President of the Simcoe South Affiliate. Tracey's very engaging presentation style holds the participants' attention the whole time. She encourages input from her audience to share their experiences and questions with the whole group. Her mission is to present the information on Infection Control in an enthusiastic, enjoyable manner to the dental assistants who carry out this responsibility.

ABOUT THE PROGRAM

The issues of Infection Control in health care have always been important. However, in recent years we have seen the devastating effects of improper infection control protocols with the SARS outbreak in 2003 and the Walkerton municipal water supply contamination with E. coli in 2002.

It is not enough just to know how to perform infection control procedures; one must also understand the rationale of such protocols. This presentation will serve as a refresher and a good review of the aspects of infection control for those employed in dentistry today.

YOU WILL LEARN

- The differentiation between cleaning, sanitization, disinfection and sterilization
- Effective methods of preventing disease transmission
- Various sterilization methods
- Environmental surface disinfection
- Effective prevention of cross contamination in the dental environment
- The importance of good hand hygiene
- Protocols for the prevention of needlestick and sharps injuries

WHO SHOULD ATTEND THIS PROGRAM?

This presentation is geared for both the clinical and administrative staff in the dental environment.

WHAT OTHERS HAVE SAID ABOUT THIS PROGRAM

"Practical and current information presented in an interactive and non-intimidating atmosphere"

THIS LECTURE IS SPONSORED BY ONTARIO DENTAL ASSISTANTS ASSOCIATION

Indirect Success: Understanding Materials and Technologies

Ronald Perry, DMD, MS, South Weymouth, MA

Time: 8:30a.m. - 11:00 a.m.
1:30 p.m. - 3:30 p.m.

Room: 202CD

Chair: Dr. Flavio Turchet

Dr. Don Stewart

Of Interest To:

Dentists	
Clinical Assistants	
Dental Technologists	

ABOUT THE SPEAKER

Dr. Perry is Director of the Gavel Center for Restorative Research and Associate Clinical Professor at Tufts University School of Dental Medicine. He owns and manages a private general dentistry practice, Meridian Dental Associates, in South Weymouth, MA.

Highlights of his recent research and teaching activities include: director for student courses in temporization and composite placement; principle investigator for several clinical trials of composite and porcelain materials. Dr. Perry also has been actively involved in constructing the fellowship exams for the Academy of General Dentistry and he is a key opinion leader for dental manufacturers across the industry.

Dr. Perry graduated summa cum laude with a B.S. from Boston College. He earned his doctorate in dentistry from Boston University. He completed his M.S. in Dental Research at Tufts University School of Dental Medicine. He is a "Dawson Institute" graduate, holds fellowships in four different academies, has published over 40 articles and 55 abstracts, and lectures nationally and internationally.

ABOUT THE PROGRAM

Morning Session: Impressions & Provisionals Overview

Dr. Perry will use an evidence-based approach to discussing how impressions, bite registrations, provisionals and restorative material selection can affect the long-term success of indirect restorations.

Afternoon Session: Indirect Materials & Technology Overview

He will give technique tips and discuss how to select the appropriate combination of materials. He will suggest ways to educate and empower your dental assistants to become a vital part of the clinical team. Dr. Perry will discuss communication strategies that will eliminate frustration when dealing with your dental labs.

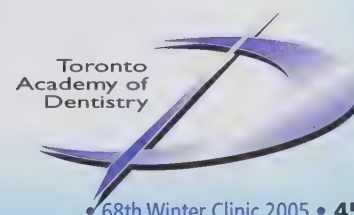

WHAT YOU WILL LEARN

- How improper impression-taking will affect negatively your restorations
- How to make and use a provisional, not just a "temporary"
- How a patient's periodontal health and homecare tendencies can shape your treatment plan
- How to select an indirect restorative material
- How to get the most out of your dental lab and dental assistant
- How to use clinical tips and techniques to get proper function and esthetics using newer technologies

WHO SHOULD ATTEND THIS PROGRAM?

This course is suitable for dentists, laboratory technicians and clinical dental assistants.

THIS LECTURE IS CO-SPONSORED BY SHAW LAB GROUP & DENTSPLY CANADA

Cosmetic & Restorative Dentistry: Form and Function in Harmony

Jerry Simon DDS, New York, N.Y

Time: 8:30 a.m. -11:00 a.m.

Room: 202AB

Chair: Dr. Carolyn Poon Woo

Of Interest To:

Dentists	
Dental Technicians	

ABOUT THE SPEAKER

Dr. Jerry Simon presents over 30 programs a year in the United States, Canada, Europe and Japan focused on cosmetic and restorative dentistry. Recent programs include the Academy of General Dentistry and Rosenthal Group. He has published 22 articles in peer reviewed and clinical journals as well as his book *Stop Headaches Now* is recommended by Drs. Peter E. Dawson, Gordon Christensen and the Pankey Institute. Dr. Simon is an alumnus, New York University Dental School and Mt. Zion Hospital's residency program. Dr. Simon has completed extensive study in cosmetics, TMD, implantology and gnathology. He is a fellow of the Academy of General Dentistry, the Misch Institute and the International Congress of Oral Implantology.

ABOUT THE PROGRAM

This seminar presents a systematic methodology for the diagnosis and treatment planning of cosmetic and restorative cases. The first half of the program presents a diagnostic system and a step-by-step approach to occlusal analysis. The second half of the program reviews the treatment planning and delivery of a dozen well-documented cases and the factors that lead to case acceptance.

YOU WILL LEARN

- Fundamentals of patient diagnosis and examination
- Anatomy and function of jaw joints
- Developing a treatment plan
- Bite records & case mounting
- Golden proportion & vertical dimension
- Fundamentals of occlusion
- Cosmetic and restorative techniques
- Veneer preparation and placement
- Crown and bridge placement
- Case finishing
- Bite splint fabrication & adjustment
- Equilibration techniques
- Patient education and communication
- Cosmetic imaging
- Cosmetic "In-mouth temporary mock-up"

WHO SHOULD ATTEND THIS PROGRAM?

This program is geared to progressive restorative dentists wishing to expand their diagnostic, treatment planning and case delivery skills.

POWER HOUR

From Silence to Involvement: What Can Be Done About Bullying?

Jay Solomon, Toronto, ON

Time: 11:15 a.m. – 12:15 p.m.

Room: 202AB

Chair: Dr. Bruno Vendittelli

Of Interest To:

Dentists	Dental Hygienists
Clinical Assistants	Administrative Assistants
Dental Technologists	

ABOUT THE SPEAKER

Born and raised in Toronto, Ontario, Jay Solomon realized first hand the damaging effects bullies can have on young people. Jay was first bullied for being too quiet, and then for being too out-spoken. Frustrated with the status quo, he decided to take a stand. At the age of seventeen, Jay began speaking out against bullying and school violence. His initiatives, aimed at bringing about public awareness and reducing bullying in schools, have been featured by numerous media outlets, including: CityTV, CFTO/CTV, VRland, Canadian Living Television, TVOntario, CFRB 1010, Rogers Cable, KISS 92FM, CTS/PAX, the Canadian Jewish News, the Toronto Star, and the Town Crier.

Jay currently serves as the Youth Coordinator of the Canadian Initiative for the Prevention of Bullying. He is the author of a self-published book entitled *Being Bullied? You're Not Alone!* In 2004, Jay co-founded Right2Express – an online magazine for young writers – where he currently serves as CEO & Editor-in-Chief.

Now in his early 20's, Jay is studying Education and Political Science at York University in Toronto. Described as a "charismatic speaker" Jay shares his motivational messages with youth and adults alike. His past experiences, age and approachable style make him a unique presenter.

ABOUT THE PROGRAM

With an emphasis on bullying in schools, this presentation will empower you to be able to make a difference. This presentation will address the following questions:

- What is bullying?
- Who is affected by bullying?
- How has bullying changed?
- Why does bullying continue to be a problem?
- And, what can be done to reduce it?

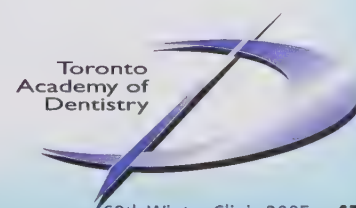

WHO SHOULD ATTEND THIS PROGRAM?

Jay has spoken to thousands of parents, educators and kids from across the country. Everyone will find this presentation enlightening and motivational!

WHAT PEOPLE HAVE SAID ABOUT THIS PROGRAM

"Jay is an extraordinary young man and a 'rising star' with unlimited potential"

Staff Inspector Jim Sneepe, Toronto Police Services

POWER HOUR

How to Become a Millionaire

**Robert Haisman,
Mike Lakhani,
Brian McCallum**

Time: 11:15 a.m. – 12:15 p.m.

Room: 202CD

Chair: Dr. E. Douglas Jones

Of Interest To:

Dentists	Dental Hygienists
Clinical Assistants	Administrative Assistants
Dental Technologists	

ABOUT THE SPEAKERS

Robert Haisman, TEP

Robert is an Insurance Planning Advisor with Assante Estate and Insurance Services Inc. He has more than a decade of experience in insurance and estate planning, and focuses on professional and self-employed business clients, designing and implementing estate based insurance plans to address risk management and wealth transfer problems.

Mike Lakhani, B.Comm., CGA, CFP, RFP

A leader in the financial planning industry for 15 years, Mike specializes in tax planning for dental professionals. With his expertise in accounting and tax planning, Mike's clients appreciate the comprehensive and integrated approach he takes to manage their financial affairs. As one of the country's top financial advisors he has received the prestigious DALBAR Financial Professional Seal.

Brian McCallum B.Com, CGA, CFP

Brian received his Bachelor of Commerce (Honours) degree from the University of Manitoba in 1983. He received the Certified General Accountant (CGA) designation in 1987 and his CFP in 1997. He is a Wealth Planning Consultant and helps in identifying issues and provides wealth planning solutions to the complex needs of high net worth clients.

POWER HOUR

CONTROLLING the VARIABLES in RESTORATIVE DENTISTRY

Len Boksman, D.D.S., London, ON

Time: 8:30 a.m. – 9:30 a.m.

Room: 205CD

Chair: Dr. Sheryl Lipton

Of Interest To:

Dentists	
Clinical Assistants	

ABOUT THE SPEAKER

Dr. Leendert (Len) Boksman is a 1972 graduate of the Faculty of Dentistry at the University of Western Ontario. After private practice in Burlington, Ontario till 1979, Dr. Boksman joined the Division of Operative Dentistry at Western where he obtained the rank of Associate Professor with Tenure. He was the first international Editorial board member for Reality Magazine and has been a consultant with 3M/ESPE and Caulk/Dentsply for more than 25 years. Len received his Fellowship in the Academy Dentistry International (F.A.D.I.) in 1984 and a Fellowship in the International College of Dentists (F.I.C.D.) in 2003. Dr. Boksman has published more than 60 articles in refereed dental journals and textbooks with numerous lectures internationally. He has maintained a full time practice in London, ON from 1987 to 2005. Dr. Boksman is currently the Director of Clinical Affairs for Clinical Research Dental.

ABOUT THE PROGRAM

Simplification with predictability in crown and bridge seems hard to achieve unless you have the materials and techniques that will work in synchronicity. This program will present systems of impressioning and temporization that lead to increased productivity and time savings with less clinical variability. These systems will facilitate insertion of crown and bridge restorations and veneers with minimal insertion time. A predictable simplified composite system for reliably recreating the anatomical details and colour mapping of the anterior dentition in Class IV and veneer cases will be discussed. This system provided for long-term esthetic restorations due to its long-term polishability recreating the natural optical qualities of the natural dentition.

WHAT YOU WILL LEARN

- Quick simplified sectional impressions
- Time saving predictable temporization for the posteriors
- Anterior temporization for veneers reliably and easily
- A composite colour system for lifelike anterior restorations

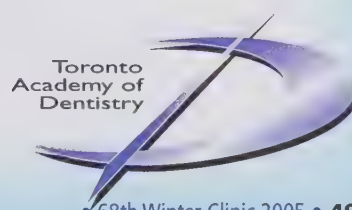

WHO SHOULD ATTEND THIS PROGRAM?

All dentists and dental assistants who find impressioning and temporization can be frustrating. Those interested in a simple anterior system to create predictable colour results, rather than trying a myriad of colours to attain the final desired shade match

POWER HOUR

YIELD LARGE TAX SAVINGS

Contemporary Tax Tips for the Dentist

Mr. David Chong Yen, BA, CFP, CA, Toronto, ON

Time: 11:15 a.m. – 12:15 p.m.

Room: 203AB

Chair: Dr. Peter Tonisson

Of Interest To:

Dentists	

ABOUT THE SPEAKER

David obtained his Bachelor of Arts from the University of Toronto in 1980 and attained his Chartered Accountants Designation in 1983. David is also a certified financial planner. His thorough knowledge has helped many healthcare providers improve their income and manage their practices. He has presented programs to many groups and his articles have been published to a wide audience including the Ontario Dentist, Dental Practice Management, the National Post and more. David's chartered accounting firm currently serves several hundred health care professionals.

TOPICS TO BE PRESENTED

- Incorporation – Myth? Fact?
- Trusts
- Income Splitting
- Insurance and your corporations
- GST and PST issues
- Top Five Tax Saving Ideas Often Overlooked

ABOUT THE PROGRAM

A plethora of tax issues facing today's dentists will be reviewed. Creative tax solutions to hypothetical scenarios are discussed and recent developments and new rulings will be addressed. Participants will be exposed to a variety of practical tax saving ideas.

WHO SHOULD ATTEND THIS PROGRAM?

This program is geared for dentists wishing to learn about tax saving strategies that will improve their bottom line.

POWER HOUR

MOBILE TECHNOLOGY -Where It Is Going and How It Will Take You There

Mr. Stephen Genge, Ashburn, ON

Time: 11:30 a.m. – 12:30 p.m.

Room: 206AB

Chair: Dr. Gary Fortinsky

Of Interest To:

Dentists	Dental Hygienists
Clinical Assistants	Administrative Assistants
Dental Technologists	

FEATURED CLINICIANS

ABOUT THE SPEAKER

Stephen Genge has over 20 years of technology experience. His background stems from his early years in developing business systems for both the food and light manufacturing industries to more recent accomplishments of integrating imaging systems into dental practices. Stephen has had a passion for mobile technology ever since he worked with the first PDA's. As his usage of mobile technologies has grown, he has discovered that a growing number of friends, clients and colleagues were seeking him out for his expertise.

To address this vastly overlooked field of mobile technology Stephen has formed XecuteX., a service which caters to the professional who wants the latest in contemporary mobile technology and one-on-one service support and training.

Stephen's education includes a degree in computers, a diploma in business and numerous computer-related courses.

ABOUT THE PROGRAM

In designing a (PAN) Personal Area Network one must consider the following things. The ability of the user, i.e., does the user prefer pen-based computing, a thumb board or a keyboard? Is the user in the position to use one computer for everything or will they require a PDA married to a desktop or laptop computer? The user must also consider the types of environments that these systems will be used in. Something as simple as geography can affect the decisions and design of equipment that is used.

In this program, one will learn the pros and cons of the different types of PDA's and the services they offer along with their accessories.

WHAT YOU WILL LEARN

What types of popular hand held computers are available and their pros / cons

- Palm, Pocket PC, Rim (Blackberry), Tablet PC
- Personal Area Network (PAN) Data Exchange
- Bluetooth - (demonstration of Pairing) between palm, cell phone, laptop, headset
- IR Infrared - (beaming data) between like devices and unlike devices
- Palm demonstration of Multimedia applications
- Palm demonstration of Microsoft Office data exchange
- Other productivity software including wireless communication i.e. Internet, Short Text messaging and E-mail
- Features and accessories to look for in a cell phone
- Explanations of the types of data services GSM, GPRS, CDMA, 1X - pros and cons
- Accessories currently available, i.e.: keyboards, headsets, printers, global positioning systems and speakers.

WHO SHOULD ATTEND THIS PROGRAM?

This program will be of interest to those who have a keen interest in technology and to those who would like clarification in the confusing plethora of products available when choosing a personal digital assistant and cellular telephones.

POWER HOUR

An Afternoon at the Faculty • Part 1

Periodontal Breakdown...what to do for your patients?

**Jim Yuan Lai, BSc, DMD, MSc (Perio), FRCD(C),
Toronto, ON**

Time: 1:30 p.m. – 2:30 p.m.
Room: 206AB
Chair: Dr. Philip Novack

Of Interest To:

Dentists	Dental Hygienists
☐	☐
☐	☐

ABOUT THE SPEAKER

Dr. Jim Lai received his dental training at the University of Pennsylvania and completed his Master of Science with Advanced Dental Specialty Training in Periodontology at the University of Toronto. He is a Fellow of the Royal College of Dentists of Canada, Pierre Fauchard Academy and International College of Dentists. He has been the Director of Undergraduate Periodontology for the past 5 years and is now the Graduate director and Head of the Discipline of Periodontology at the Faculty of Dentistry, University of Toronto.

ABOUT THE PROGRAM

Chronic inflammatory periodontal diseases are treatable. Early detection and intervention of periodontal breakdown is important in helping patients retain their dentition over their lifetime. A comprehensive understanding of the available periodontal therapies including periodontal regeneration, chemotherapeutic, host modulation, and management of systemic diseases leads to effective and predictable treatments by the practitioner.

WHAT YOU WILL LEARN

- How to diagnose and detect early signs of periodontal diseases
- The pathogenesis of periodontal diseases
- The effectiveness and predictability of various periodontal therapies including osseous resective and regenerative surgeries, systemic and locally delivered chemotherapeutics, and host-modulation
- Effective management of systemic diseases that impacts on periodontal health such as diabetes

WHO SHOULD ATTEND THIS PROGRAM?

This program is geared for dentists wishing to update their knowledge about recognition of periodontal disease.

POWER HOUR

An Afternoon at the Faculty • Part 2 New Materials and Treatment Procedures in Fixed Prosthodontics

Asbjørn Jokstad, DDS, Ph.D. Toronto ON

Time: 2:45 p.m. – 3:45 p.m.

Room: 206AB

Chair: Dr. Ronald Traub

Of Interest To:

Dentists	
Clinical Assistants	

ABOUT THE SPEAKER

Dr. Jokstad is Professor and Head of Prosthodontics at the University of Toronto Faculty of Dentistry. He is the Nobel Biocare Chair in Prosthodontics also at the Faculty and the Scientific Affairs Manager of the FDI World Dental Federation. Previously Dr. Jokstad was a professor in both cariology and in prosthodontics at the University of Oslo in Norway. He completed his undergraduate dental education in 1979 and has been a specialist in prosthodontics and oral function since 1994. He has published approximately 150 research and teaching articles, book chapters and abstracts. Publications and lectures have had emphasis on: evidence-based dentistry, prosthodontics, dental restorative materials, toxicology, and temporomandibular dysfunction. Dr. Jokstad also has extensive experience in the editorial boards of different scientific dental journals.

ABOUT THE PROGRAM

The speaker will present a comprehensive review of new materials and techniques that have been introduced in fixed prosthodontics during the last several years and venture both subjective and research based opinions about their merits and disadvantages.

WHAT YOU WILL LEARN

Recognize the extensive array of alternative techniques that are available in modern prosthodontics with regard to:

- Rotating instruments
- Root posts
- Gingival retraction techniques
- The impression
- Bite & jaw registration techniques
- Color shade registration
- Temporary restorations
- Restorative materials,
- Production techniques of fixed prostheses
- Cementation.

WHO SHOULD ATTEND THIS PROGRAM?

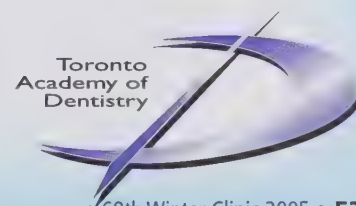

This program is geared primarily for dentists but would be of interest to clinical assistants engaged in assisting restorative prosthetic procedures.

invisalign® GP Certification: Level 1

2 Day Limited attendance program

Dr. Louis Shuman, Potomac, MD
Dr. Douglas Brandt, San Jose, Costa Rica

Friday

Room: 206E
Time: 8:00 a.m. – Noon
1:00 p.m. – 5:00 p.m.

Saturday

Room: 202C
Time: 8:00 a.m. – 1:00 p.m.

(Friday) Of Interest To:

Dentists	Dental Hygienists
Clinical Assistants	Administrative Assistants

(Saturday) Of Interest To:

Dentists

ABOUT THE SPEAKERS

Dr. Lou Shuman serves as Vice President of Strategic Relations for Align Technology and is responsible for the clinical creation of all GP and Orthodontic Workshops worldwide. He is responsible for integrating Invisalign® into the dental school curriculums at NYU, University of Illinois at Chicago, University of Texas at San Antonio, the University of Florida in Gainesville, as well as at the Pankey Institute. He has lectured on Invisalign® extensively throughout the United States, Canada, and Europe.

Prior to joining Align, Dr. Shuman was cofounder and served as Executive Vice President of Marketing and Professional Development for dental.com. There he was responsible for creating online education exclusively for the ADA, AGD, State of Michigan Dental Society, as well as for national thought leaders, Drs. Gordon Christiansen, Peter Dawson, Frank Spear, and Ron Jackson, among others. Owner of a ten doctor private group practice and specializing in Adult Orthodontics, Dr. Shuman has also had a successful career in dental practice management where he has received numerous awards in professional marketing and community service.

Dr. Douglas Brandt works at the Treat facility in San Jose, Costa Rica. There he is responsible for a program that provides continuing education to the technicians. This program is designed to maximize communication between the technician and the Doctor. He has been with the company for the past 5 years in various capacities including Invisalign® education and certification for all dental professionals. He has spent considerable time lecturing in the United States, Canada and Europe. His personal dental education has always been focused on multidiscipline approaches to treatment. Having the opportunity to serve on a number of Dental School Faculties has allowed him to share this knowledge base. Dr. Brandt has been in practice for the past 21 years.

ABOUT THE PROGRAM

Invisalign® is an esthetic orthodontic technique that corrects malocclusion using a series of custom-made, nearly invisible, removable aligners, worn for a minimum of two weeks, moving teeth gradually. This one and a half day course has been designed specifically for the general practitioner and staff who wish to incorporate Invisalign® into their practice, or simply learn more about this orthodontic technique and computer system. Upon completion of the course, the practitioner and staff will be fully confident and comfortable in integrating Invisalign® into their practice. Thousands of dentists are certified to treat patients with Invisalign® – you can too.

You Will Learn:

- The Invisalign® case submission process.
- How to utilize numerous clinical support mechanisms that Align Technology provides.
- The benefit and impact the Invisalign® technique will have on your existing and new patients.
- How to identify different Invisalign® case types, including those that present the highest degree of predictability.

DAY ONE: DENTIST AND STAFF

- How Invisalign Works
- Invisalign Manufacturing Process
- Diagnosis
- Record Preparation
- PVS Impressions
- Digital Photography
- Treatment Planning
- Case Submission
- Monitoring and Finishing
- Support Mechanisms

DAY TWO: DENTIST ONLY

- Interactive Hands-on Workshop takes the dentist through each step of the Invisalign case submission and treatment process using actual cases - all in a hands-on format.
- Diagnose cases
- Treatment Planning and Case Review
- Treatment Planning and Visualization Software
- Interproximal Reduction (IPR)
- Tips and Techniques from the Experts

Who Should Attend this Program?

Friday's program is for the dentist and up to four staff members. Saturday is only for the dentist.

This program requires a minimum registration of dentists and is subject to cancellation if not fully subscribed.

The registration fee of \$1,745.00 Canadian Funds includes one dentist and 4 auxiliary staff, all course materials, lunch as well as full participation in all other Winter Clinic activities. The registering dentist must be a resident of Canada or the United States of America.

AFTER COMPLETING THIS WORKSHOP, YOU WILL BE FULLY CERTIFIED TO TREAT YOUR PATIENTS WITH INVISALIGN

STUDENT RESEARCH

Poster Board & Table Clinic Presentations

Exhibit Hall: 2:30 p.m. - 5:00 p.m.

Student Research Poster Boards & Table Clinics will be displayed from 2:30 p.m. until 5:00 p.m.

Judging will take place at 3:00 p.m., and prizewinners will be announced at 4:00 p.m. Judging will be based on academic research, content, presentation and appearance. Based on a total score, the top three selected will be awarded prizes.

SIGN UP FOR BRUSH-A-MANIA 2006

Wednesday, April 5, 2006

Brush-a-mania is an Oral Health Month program designed to promote oral health and awareness among young children. Each year, Ontario Dental Association member dentists and Rotarians visit participating schools and hold an assembly during the month of April. The children are provided with an interactive, entertaining presentation in proper dental care. Each assembly concludes with a Brush-off, where all participants brush their teeth simultaneously for three minutes.

The students track their brushes for the entire month of April in the classroom and at home in their booklets. Each student receives a toothbrush and a Brush-a-mania booklet containing activities and games, as well as a take-home chart for them to mark off their daily brushes. Students who complete the program receive a loot bag containing sugarless gum, stickers and a Brush-a-mania Club Member certificate.

You may participate at any school in Ontario. All of the supplies are provided and shipped directly to each school. For more information or to register for Brush-a-mania 2006, please visit our web site <http://www.donmillsrotary.ca/brush.htm> or contact me.

Ms. Erla Kay

Erla has been employed by Southam Communications since 1970. Her first role was as advertising sales representative, and in 1980 she became the first woman Publisher in this company for the journals Oral Health, Dental Practice Management (DPM), and Health Care, in Canada, and Long Term Care (LTC). She was also the Editor for DPM and LTC, and wrote extensively for the business side of the Hospital and Dental Profession.

Erla has enjoyed a number of firsts in her career and was proud to be voted in as the first female Director and President of the Dental Industry Association of Canada (DIAC), and a nominee for the Toronto Sun's Award for "Women on the Move". She has also won many awards for creativity and editorial content in the publishing field.

A nationally recognized speaker, Erla was the only Canadian invited to join the Dental Advantage Group based in the United States, which brought together the leaders of dentistry across North America. She was instrumental in introducing Canadian Dentists to Dental Boot Kamp, where dentists honed their communication and patient skills; and she has helped many dentists build a successful and less stressful practice by giving them tangible tools and systems which when used properly, produce immediate results.

Erla worked with the Toronto Academy of Dentistry staff on many projects, The Children's Aid Foundation project, Golf Tournaments, and fund-raising events and was a strong supporter of Winter Clinic over the years. She enjoyed working with young dental students and was always available to talk to them and offer encouragement as they worked their way through dental school. It was always rewarding to see them grow from a student to a professional dentist, and to have unshakeable confidence, a focused mind, a winning attitude, and the clinical skills necessary for their success.

If vision is the essence of leadership, then effective communication is the foundation to building your vision and over the years, Erla's Publisher column in Dental Practice Management stressed this theme and it was well-received. Erla's ability to communicate with the leaders of Dentistry across the world is well known and unique. Her leadership skills were strong and her reputation for being a "straight shooter" has had a positive impact on the dental profession.

Erla retired from her duties at Oral Health in 2002, and now lives in Barrie, Ontario, with husband of 25 years, Paul Jersak. She still does some speaking and consulting work, but her greatest pride and joy is her four children, Glenn and Sandra, who work in the dental field; Lori, who has been in the dental industry for the past 10 years, is just starting a new position in the Health Care Field; and Richard, who is the General Sales Manager with Rogers Publishing. Their expertise in parenthood never fails to amaze her and their business sense and care for community and others is quite humbling and rewarding. Erla has eight grandchildren between the ages of seven and 20, and when in Florida over the winter months, keeps in touch with them through the technology of computers, webcams and MSN messenger. Even the youngest one is proficient in the use of technology, and Erla is grateful that through her position as Publisher, she was given to obtain those skills, so necessary for instant communication in this fast moving world we live in.

Erla sums up her career by saying "When people know that you trust, respect and care about them, you will find motivated people all around you. A positive attitude is important and so is having balance in your life."

Past Service Award Recipients

Mr. Ken Croney, 2004
Mr. John Paterson, 2003
Mrs. Raisyl Wagman, 2002
Mr. John Gillies, 2001
Mr. Stewart Cannon, 2000

YOU'VE HELPED US HELP OTHERS

The Toronto Community Professional Dental Association was incorporated in 1994, and was created to be utilized for charitable donations only, a commitment the Academy is honoured to be a part of.

SPECIAL NIGHT ... A SPECIAL CAUSE

Be a Part of the 19th Annual TEDDY BEAR AFFAIR™

Saturday, November 26, 2005

The Children's Aid Foundation has earned a reputation for delivering high-caliber and well-executed events. In 2004, the Teddy Bear Affair TM won awards including: Best Fundraising Event in Canada at the Canadian Event Industry Awards and Best Corporate Event and Best Social Planning Event at the International Special Event Society Conference.

Each year, the Teddy Bear Affair TM raises over \$1 million for disadvantaged children across the country. Over 32,000 children in Toronto and 300,000 nationally will be given the skills and support they need to overcome the seemingly insurmountable odds of poverty, abuse and neglect. One hundred percent of the proceeds will be directed to programs in the area of Education, Enrichment and Prevention. With your integral support, we can continue to instill PRIDE, build RESPECT, and provide HOPE to thousands of children across the country.

Your Ticket Includes:

- Champagne Cocktail Reception
- 5-star Gourmet Dinner
- Silent Auction of One-Of-A-Kind Teddy Bears
- Silent Auction of Exquisite Gifts
- Live Auction of Luxury Items and Trips of a Lifetime
- Dancing & Live Entertainment
- Raffle

2005 SKI REPORT

On Friday, February 25, 2005, the Academy celebrated our annual C.C.R.F. Ski Day, held this year at Devil's Glen.

Over the past few years the Academy has worked in conjunction with C.C.R.F. (Canadian Cardiac Rehabilitation Foundation), and has helped raise funds for this noble cause. This year we were fortunate to work with the University of Toronto Dental Alumni, the Alpha Omega dental fraternity, and received help from Ash Temple, one of our leading sponsors.

Specifically, I would like to thank Dr. Ben Venditti and Dr. Ragna Bersenas at the University of Toronto, and also Dr. Earl Haltrecht, and most certainly Mr. Ken Croney for the outstanding support and effort in making this day a success.

The day went off marvellously: a scrumptious breakfast, well-run races, a superb lunch, a combination of downhill, cross-country skiing and snow-shoeing followed by a relaxing après-ski wherein we were treated to hors d'oeuvres and wine-tasting to accompany a fine raffle.

During the day we had ReMax set up their balloon, but when high winds lifted and shifted, it was necessary to dismantle it from the truck it was tethered to. Nevertheless, we wish to thank them for their participation.

We also appreciated the support of Ken Shaw Lexus and their gift donation.

In closing, the time spent over the last two years at Devil's Glen has been an enjoyable one and the support here has been marvellous.

The committee is already hard at work to make next year's event even better. We will be looking at other venues, perhaps Craighleith or another exclusive, private club for 2006.

Special thanks to Dr. Phil Shedletsky and Iain Hunter as well as others on our committee who gave freely of their time, and especially to Judy Carlyle and Christine Mellos for all that they do.

Looking forward to seeing you there next year!

Tim Milligan, DDS

CIT TORONTO DENTAL CHARITY GOLF CLASSIC

Another successful tournament was held on Friday, June 17, 2005, at Nobleton Lakes Golf Club, located on Highway 27, just north of the town of Nobleton, featuring 27 of the most challenging and scenic holes in the Greater Toronto Area.

Since the onset of this charitable event CIT Equipment Finance has been our loyal tournament sponsor. To date, over \$250,000 has been donated on behalf of the dentists and dental industry, which includes proceeds from registrations, raffles, auctions, and contests, to Bloorview MacMillan Children's Foundation, a fund the Academy has proudly been supporting for more than fifteen years. We look forward to continuing to support this invaluable cause for many years to come.

Thank you to Julie Brown and the volunteers representing Bloorview MacMillan Children's Foundation on the day. Thank you also to Ken Croney for selling raffle tickets, Dave Lind of CIT Equipment Finance for selling Hole Sponsorships, our esteemed emcee, Bob Durant. We would also like to extend our sincere appreciation to the golfers who came out to participate!

MEDIATIONS REPORT

The Toronto Academy of Dentistry is the administrator for the four Toronto component societies of the Ontario Dental Association, whose committees mediate conflicts between Toronto member dentists and their patients when called upon.

Complaints are processed following specific guidelines set out in the ODA Mediations Procedure Manual.

Our committees are very successful in their efforts, acting with common sense, compassion and empathy for both parties. This past year approximately 10 written complaints were examined.

The RCDSO Code of Ethics begins with "The dental profession holds a special place of trust within each society and, as a result, society extends opportunities and privileges to the profession that are not available to the public at large. In return, the profession makes a commitment that its members will adhere to high standards of clinical expertise and ethical conduct." Misunderstandings and complaints rarely occur when a warm, open and reassuring attitude is developed with patients. As dentists, we must nurture and retain a trusting relationship so that our patients feel they are the most important person in the office. When patients trust that we have their best interests at the heart of our recommendations and treatment, and treatment needs or options have been discussed, discord can often be avoided when the expected results of treatment are not achieved.

I would like to thank our dedicated group of mediators who have volunteered their time to help their fellow colleagues and their patients resolve differences and, in the end result, maintain our profession in high esteem. Thanks as well to our hard-working administrative staff, Andrea, Pat and Mara.

Gilbert Chapnick, D.D.S.
Mediations Coordinator,
Toronto Academy of Dentistry

CONGRATULATIONS

Each Year the University of Toronto,
Faculty of Dentistry
awards prizes donated by the
Toronto Academy of Dentistry

The awards are given to two outstanding
students in the departments of
Paedodontics (4th Year), and in Community
Dentistry (3rd Year)

The 2004-05 Winners were:

Ms. Swati Khanna, Paedodontics

Ms. Jill Levine, Community Dentistry

1929-1930	T.E.C. Butler*	1970-1971	Wilfred J. McColeman*		

The Past Presidents of the Toronto Dental Society are identified as past Presidents of this Academy.

HONORARY LIFE MEMBERSHIP 2005

Norman Levine, B.A., D.D.S., Dip. Paed., M.Sc.D and F.R.C.D. (C)

Dr. Levine was born and raised in Whitby which at that time was a small agricultural town, part of rural Ontario. He attended a two-room public school and the only high school in the entire area. He spent summers working on the farm and construction.

After completing high school he spent a year working on the assembly line at General Motors in Oshawa before enrolling at UofT, University College – Faculty of Arts and Science from which he received his B.A. (1955). He then enrolled in the Faculty of Dentistry, University of Toronto and received his D.D.S. Degree in 1960. In 1962 he completed his postgraduate studies in Paediatric Dentistry and in 1967 his MScD from the Faculty and Fellowship in the Royal College of Dentists (C).

Norman's contributions and accomplishments both to the profession and the community are extensive. He has received many honours and awards provincially, nationally and internationally.

He commenced private practice in 1962 while studying for his M.Sc.D. He takes much pride in having worked for four Deans. Dr. R. G. Ellis hired him quarter-time; Dr. G. Nikiforuk half-time, Dr. R. Ten Cate full-time as Professor and Chairman, Department of Paediatric Dentistry and Dr. B. Sessle till the end of time and into overtime which allowed him to develop and implement the Qualifying Program for Foreign Trained Dentists at the Faculty of Dentistry. He retired for the final time in 2002 as Professor Emeritus having served as Assistant Dean, Associate Dean and Acting Dean for one year on two occasions.

His list of invited lectureships and publications is indeed impressive but what is apparent is Norm's focus on the dental needs of Persons with Disabilities. To this end he established the dental clinic at Bloorview Children's Hospital (1978) at Sheppard and Leslie and the Section of Dentistry for Persons with Disabilities at Mount Sinai Hospital (1974). Until 1974 undergraduate Dental Students received no training in treating the physically/developmentally disabled. He supervised or co-supervised the research of more than a dozen post-graduate students and had received approximately \$2 million in grant support for dental care for persons with disabilities (Mobile Dental Clinic in Northern Ontario) and dental treatment for aboriginal peoples at Sioux Lookout and Moose Factory.

Dr. Levine has been a true clinical academic, teacher, author, researcher and administrator. One who believes that education is never complete but is an ongoing process with the ultimate goal the betterment of mankind.

Dr. Levine's family has been/are involved in some aspect of special needs programs. Lorraine, his wife of almost 50 years was department head of Adult Education at Victoria Park Secondary School. Dayle Ann is currently iDAPT Project Manager at Toronto Rehabilitation Institute having spent 11 years at Bloorview MacMillan Children's Centre in the Rehabilitation Engineering Department. Beth Ellen, wife to Arnold and mother to Mira and Gerald is a nurse educator/researcher and shares her time with the Faculty of Nursing, U of T and Bloorview MacMillan Children's Centre. Heidi Lynn is Head of Special Education at Oakwood Collegiate in Toronto having spent seven years at Drewry Secondary School for educable students.

Norm feels very fortunate in having had a fulfilling career and equally a wonderful wife and family who have always been supportive in all his undertakings as well as many friends and colleagues.

inVizion™

A VITA ALL-CERAMIC RESTORATION

**Always Strong,
Always Beautiful**

Finally, An All-Ceramic Restoration That Delivers As Promised

Ceramics and dentistry by Dr. Ed McLaren

inVizion restorations milled on the Sirona inLab® system combine the incredible strength of VITA YZ ceramic with the highly esthetic properties of VITAVM®9 ceramic veneering material.

VITA YZ (yttrium stabilized zirconium oxide) is among the strongest all-ceramic dental material available and is suitable for delicate frameworks, leaving more room for creative ceramic work. Plus, inVizion restorations boast an incredible 900+ MPa flexural strength. This biocompatible restoration is available in 29 primary VITA 3D-Master® shades as well as 52 intermediate shades.

For the name of an inVizion certified lab visit www.vident.com or call Vident.
